VOL XVI. NO. 275. TOLEDO, OHIO, MONDAY MARCH 21, 1892. LAST EDITION. TWO CENTS.

IN THE BEE TO-DAY

WEATHER INDICATIONS.

There is a well-defined area of high pressure over the entire lake region and the upper Ohio valley, and generally clear weather is reported throughout this region.

The "Low," which was central over the lower St. Lawrence valley Saturday, has passed out over the coast of Maine.

Snow is reported at Cincinnati, Louisville, St. Louis, Kansas City, Dodge City, North Platte and Bismarck.

Temperatures in the northwest range from 12 to 24 degrees, with the zero line dipping as far south as Duluth. An area of low pressure has developed in the west and is now central about Denver, and is moving eastward, bringing a rise in temperature.

The weather to-day will be fair with slight changes in temperature, and for Tuesday slightly warmer, increasing cloudiness, with probably rain in the afternoon or at night.

Stations.	Wind.	Tem.	Vel.

INTO THE COMBINE.

Claus Spreckels Joins the Sugar Consolidation.

Philadelphia, March 21.—The Inquirer this morning says: The official announcement that Claus Spreckels' refinery had gone into the great sugar combine with the Franklin refinery of Harrison, Frazer & Co., and the refinery of E. C. Knight & Co., may be expected in a few days.

The preliminaries are said to be about fixed and all that remains to be arranged is minor details. The terms are not yet known, nor is it understood exactly how Spreckels was influenced to go into the combination he has fought with so much vigor.

He is, however, credited with making about $3,000,000 in the deal over and above the cost of his big refinery in this city.

CRAZY WILLIAM.

Humiliation of the German Kaiser

General Caprivi Will Remain Chancellor.

A Flag of Truce Has Been Hoisted.

The Emperor Retracts His Insulting Words.

Fear That the Formation of the Ministry Would be More Than the King's Health Could Stand Caused a Reconciliation.

Berlin, March 21.—Gen. Caprivi has returned from his visit to Hubertusstock, in answer to the summons of the emperor.

The chancellor is reticent as to the facts of the interview, except that at the command of his sovereign, he has consented to withdraw his resignation and remain at the head of the cabinet.

The chancellor had gone on Sunday, with the determination to insist upon his resignation being accepted, but the kaiser made an earnest personal appeal that brought about what is called a reconciliation.

This appeal is said to have been based mainly on the condition of the kaiser's health, and the fact that he was in no condition to face a strain that a change in the chancellorship would involve.

The kaiser is said to have explained that his abruptness at the cabinet meeting which led to the offers of resignation from Caprivi and Count Zedlitz was owing to his state of health, and not prompted by any desire to humiliate Gen. Caprivi.

So much is derived from semi-official sources regarding the interview. The fact that the chancellor has consented to swallow his anger and continue at the head of the government under circumstances that cannot fail to be most embarrassing, has strengthened the reports regarding the kaiser's health.

It is the current talk to-day, among members both of the reichstag and the landtag, that nothing short of a fear that the kaiser's health would be dangerously affected would have induced Caprivi to withdraw his resignation, and that the condition of the kaiser is much more serious than had been supposed.

It is presumed that, if the truth were known, the kaiser would be obliged to retire and give way to Prince Henry as regent, and that the kaiser's only chance for recovery is in absolute freedom from political anxieties.

With Caprivi in office, such freedom is possible, for Caprivi is acquainted with the policy and purposes of the emperor, and would not be likely to make any mistake.

With a new chancellor, continual instruction would be necessary, and the kaiser would have to be his own chancellor for a time.

It is stated that the Empress Frederick, whose anxieties about the kaiser's condition is very great, addresses a personal request to Gen. Caprivi not to go against the wishes of her son under existing circumstances.

The kaiser is reported to be suffering severely with cerebral pains, and when an attack of this kind is at its worst, he is hardly controllable, or responsible for his language.

But while consenting to remain as chancellor, Caprivi insisted upon the kaiser accepting his resignation of the office of Prussian premier.

He pointed out that he would be a laughing stock in the landtag; that his influences there were irredeemably damaged, and that he could not for a moment think of retracting his utterances on the subject of the education bill, utterances into which he had been led by his desire to serve the views and carry out the policy of his sovereign.

The kaiser was obliged, therefore, in order to keep Caprivi as chancellor, to accept his resignation as Prussian premier.

This will, in name, at least, divorce Caprivi entirely from Prussian affairs, and relieve him from the obligation of appearing in the landtag.

From the time of the foundation of the present German empire the chancellorship of the empire and the premiership of Prussia have gone together, and been regarded as virtually inseparable.

This has kept the political course of Prussia in line with the policy of the empire, and has greatly strengthened the influence of Prussia in imperial affairs. It is believed that the separation of the two offices will be generally victory to the smaller states, and especially to Bavaria, where jealousy of Prussian predominance has of late greatly increased. Bavaria is not alone in particularism, and the feeling is especially strong in some of the lesser duchies, including Mecklenburg-Strelitz and Mecklenburg-Schwerin, in the latter of which St. Petersburg connections are very influential.

So serious has this feeling grown in some quarters that in Mecklenberg-Strelitz the local authorities ignored the last and previous birthday of the kaiser. It is believed that the separation of the chancellorship from the premiership of Prussia will go far toward allaying this jealousy.

The resignation of Count Zedlitz has been accepted. This was unavoidable. The count in the very beginning assumed an extraordinary responsibility, in not placing the education bill before the other members of the cabinet, before submitting it to the landtag and the kaiser and Caprivi, while they pushed the bill as a government measure, were never entirely satisfied with Count Zedlitz's action.

The count is esteemed personally, but is not looked upon as a practical statesman. His departure from the Prussian cabinet will not, therefore, be deeply regretted by his remaining associates.

The resignations of Caprivi and Zedlitz leave Dr. Miquel as the controlling spirit of the cabinet and current report associates his name with the premiership, although other names are also mentioned.

The kaiser thinks Miquel indispensable as a financier, and should he be appointed premier, he would probably remain in virtual if not actual direction of the financial policy of Prussia.

It is freely said that the opposition which has been aroused on all sides by the kaiser's veering policy on the education bill will not be satisfied with the resignation of Caprivi as premier, and that he will find the reichstag less inhospitable than the landtag.

The ultramontanes are furious with disappointment, and their anger is growing, instead of lessening. Even their leaders are unable to control their usually well disciplined following, and the indications are that it will be a long time before the government can expect any favors from the ultramontane party.

The Protestants of all casses and sects are generally satisfied with the situation, and in several of the Lutheran churches yesterday allusion more or less direct was made to the gratifying change which has come about during the past week, and the pastors attributed to influences from above upon the heart of the kaiser.

NEW ELECTION LAW.

A Certified Copy of the Recent Amendment.

Columbus, O., March 21.—There has been a great demand for the amendment to the Australian law, relative to spring elections. Secretary Ryan found it necessary to order printed 1,000 extra copies, which he is distributing. Following is a certified copy of the law:

Section 1. Be it enacted by the general assembly of the state of Ohio, That section 1 of an act entitled "An act to provide for the mode of conducting elections, to insure the secrecy of the ballot and prevent fraud and intimidation at the polls, and to repeal certain statutes therein named," passed April 30, 1891, O. L., v. 88, p. 449, be and the same is hereby amended so as to read as follows:

Section 1. That hereafter elections of all public officers in the state of Ohio shall be conducted in accordance with the provisions of this act; except, however, April and all special elections for township (including justices of the peace), and municipal officers of hamlets and villages not divided into wards, whose population by the last federal census was less than 3,500, and municipalities situate in two or more counties, elections for school directors, subdistrict directors, and members of school boards and boards of education in township, special, and village school districts, when such villages have a population by the last federal census of less than 3,500, and are not divided into wards, and the submission of all questions to be voted upon at such April and special elections, shall be exempt from the operations of the provisions of this act, and notice of such elections, the manner of holding the same, the returns thereof, and the canvass of such returns shall be given, held, and made as required by law.

Sec. 2. That said original section No. 1 is hereby repealed; and this act shall take effect on its passage.

THEY BRIBED IT THROUGH

Serious Charges Made By a Senator

Against the Parties to the Coal Combine.

An Enormous Sum Offered for the One Vote Necessary to Legalize the Great Consolidation.

New York, March 21.—A Special from Philadelphia to the Herald says there was bribery, and enormous bribery at that, to secure the passage of the bill by the New Jersey legislature legalizing the gigantic coal combination of the Reading railroad with the New Jersey Central, Lehigh Valley and Lackawanna.

Proof of it is furnished on the word of State Senator Maurice Alexander Rogers, of Camden county, and his word will be accepted unquestionably from one end of the state to the other.

The senator declare that on the morning of the final passage of the bill, when an eleventh vote was needed to make a majority of the senate, he was approached by people whom he knows well and who, in behalf of the syndicate of bribers, offered him $10,000 to vote for the bill.

He indignantly repelled the man, who, by the way, happens to be a close acquaintance. Afterwards the man came to him and said that he had reported to his superiors that Senator Rogers could not be reached. They told him to try again and named an enormous sum. He said there was no use to try any more, so they resumed their efforts on the other members who had not pledged themselves to support the bill.

Senator Rogers refused to name the amount of the second offer, but said it was so large if put at six per cent. interest he need not have worked any more.

He refused to name the person who approached him, saying that it would cause greater pain to his feelings if he told it than any public praise could assuage.

Senator Rogers says he was stunned as he sat in the senate that morning and saw the bill pass. He had suspected bribery before, but then he knew it.

He also said that as soon as he had an opportunity he told friends, and 'immediately on his return home told the members of his family.

Senator Rogers' statement will create a sensation. Though there have been many rumors that an enormous amount of boodle was used to pass the bill, they could not be traced to any definite source. The matter is now likely to be investigated.

ARE IN CLOSE QUARTERS.

The Economic Gas Ordinance on Trial.

Councilmen Reported to be Arrested and Much Excitement in the Windy City.

Chicago, March 19.—When the grand jury reassembled this morning it decided to enter upon an investigation of the methods whereby the economic gas ordinance was passed by the city council.

A score of witnesses had been summoned and were in waiting to be examined.

Among them were the officers of the company and several aldermen.

City Clerk Van Cleave was first examined and produced the records of the council showing the names of the aldermen that voted for the ordinance under investigation and the others under suspicion.

Alderman Stanley Kunz was then called in and examined at length.

Report has it that three members of the council will be arrested to-morrow. Those mentioned in this connection are Aldermen John Powers, of the Nineteenth ward; John A. Cooke, of the Seventh and "Billy" O'Brien, of the Sixth. States Attorney Longenecker will neither affirm nor deny the report.

Kunz was still on the rack when the grand jury took a recess.

COAL IS CHEAP ENOUGH.

A Less Price to the Many Consumers.

Means Poorer Wages to the Men Who Dig It Out of the Bowels of the Earth.

New York, March 19.—The New York state senate committee investigating the Reading railroad deal met again to-day and examined Richard H. Williams, a wholesale coal dealer or "middleman."

He said from 5 to 15 cents per ton was generally made by middlemen on a ton of coal. Fifteen cents was the profit generally made by middlemen, but competition had cut down this somewhat.

In some instances the price of coal was raised by middlemen. They, of course, took advantage of all strikes.

He knew of no way in which the price of coal could be reduced to consumers. There was no money in it for the middlemen at the rate of 5 cents profit per ton, but there was some at 15 cents.

FILLED FULL OF LEAD.

John Considine, Well Known in the West,

Mortally Wounded at Detroit in a Row.

Arrested Forty-five Times and Escaping All But Three, He Is At Last Placed on a Dying Bed by a Fellow Citizen.

Detroit, March 21.—The shooting of John Considine by Robert McCarty Saturday evening, is the talk of the city, and many inquiries have been made as to the condition of the man who has held fearless sway here for years as though he were a business or social leader.

Considine's condition is considered dangerous, and there is little probability that he will recover—the bullet having pierced the left lung. He has been unconscious since the shooting.

Considine's career is well known to the community and police, he having been arrested something like forty-five times and been convicted about three times. He has had a wonderful pull in some directions, and the charges against him have ranged from disturbance to murder, the most aggravated of all being the Perrin abduction. He has many influential and wealthy friends.

McCarty, who shot him, is a man about town. The quarrel originated in the Russell house, and was continued at one of the club rooms. McCarty is in jail.

CRIMINAL LIBEL.

New York, March 21.—Edwin T. Godkin, editor of the Evening Post, was arrested on a charge of criminal libel preferred by Dennis W. O'Halloran, secretary of the February grand jury. Mr. Godkin was taken to police court, where he was released in $1,000 bail. The grand jury of which Mr. O'Halloran was secretary, handed in a presentment censuring Rev. Dr. Parkhurst for his attacks from the pulpit upon the official acts of District Attorney Nicol. In commenting on this the Evening Post referred to Mr. O'Halloran as "an ex-keeper of a low dive." The complainant denies that he ever kept a dive.

THE INDIANA ARRIVES.

Boat-load of Grain for Starving Russia.

The Craft Blessed and Thanksgiving Services Held on Board on Reaching Libau.

Libau, Russia, March 19.—The steamer Indiana was towed into the harbor last night, and visited by the Russian Greek clergyman who held a thanksgiving service on board and formally blessed the ship.

The Russians continue to show unbounded gratitude for America's generosity.

MRS. MOUNT PLEASANT,

A Famous Indian Lady Dead.

She Was Well Educated and Was a Power Among the Civilized Tuscaroras.

Lockport, N. Y., March 21.—The death of Caroline Mount Pleasant, wife of the late Six Nations John Mount Pleasant, Saturday, aged 60 years, removes one of the most prominent Indian women of the time.

Mrs. Mount Pleasant was a sister of the celebrated Indian, General Parker, now of New York, who served so gallantly in the civil war.

The deceased had received an academic education and was well read in literature. She proved a great help to her husband in his efforts to elevate and educate the various tribes of the Six Nations. Mrs. Mount Pleasant, after her husband's death, retained her home with the Tuscaroras, on the reservation, where her influence in religious, educational and commercial matters was strongly felt.

ANN ARBOR AHEAD.

Ann Arbor, Mich., March 21.—The net number of students now registered at the University of Michigan is 2,691, the largest number ever attending any American institution of learning, and leading Harvard by 28.

This total does not quite approach the total number of names which will appear in the calendar, as it is known that there are several whose names are not on the secretary's books. The number will not vary far from this, however, and will be a little under 2,700.

GAUMER WANTS HIS SEAT.

A Sensation Ahead in the Ohio Senate.

The Man Who Was Elected Will Present His Certificate and Ask That It Be Honored.

Columbus, O., March 21.—(Special)—It is more than probable that hades will be to pay in the senate some day this week over the seat now occupied by Mr. Iden, of Licking county, who was seated without a certificate in order that Sherman could increase his vote.

The circuit court of Licking county will soon hand down a decision making it mandatory on the board of elections of Newark, and of Licking county to make a return of the result of the election last November, which, on the face, gives Gaumer a majority of 1.

A certificate will then be issued to Gaumer and the same will be presented to the senate.

Representative Gaumer this afternoon introduced a bill amending the road laws of the state. It provides that common pleas judges shall appoint three road commissioners at a salary of $2,000 a year, the same to be confirmed by the county commissioners.

The commission will determine what roads should be improved and turn the same over to county commissioners. In fact the measures gives the commission entire charge of county roads until improved.

POLITICS TO BE BARRED.

Washington, March 21.—Representative Andrew, of Boston, has completed the report upon his bill, "To exclude political influence in the employment of laborers under the authority of the United States," and will submit it to the house to-day. The bill, according to the reports he has received, will affect some 21,000 employes, and will require that henceforth they shall be appointed or employed without regard to political considerations.

MAY NOT RECOVER.

Victims of the Lock Two Fire in a Serious Condition.

St. Mary's, O., March 21.—(Special)—The family of Christian Wissman, who had such a thrilling escape from their burning building at the Lock Two fire last Friday morning, are no better, and the two children may lose their lives.

Their escape was effected by jumping from the second story window, being terribly bruised by doing so. The oldest girl and youngest child were impaled on the fence.

Mrs. Wissman is also suffering terribly. Her condition is serious.

MAY DAY TROUBLE.

Brussels, March 21.—The government is already making military preparations for May Day. It is said that information has been received from the Paris police that the anarchists design an important demonstration on that day in Brussels.

The Belgian officials everywhere have been ordered to exercise the utmost vigilance. In Liege the police force has been increased and the garrison is to be reinforced. The severe sentences recently imposed upon certain Liege anarchists have only stimulated other anarchists to greater activity.

THE ANSWER HAS ARRIVED

Lord Salisbury Firm In His Former Demand

Not to Renew the Modus Vivendi.

The Secretary of War Busily Engaged Carrying Out Orders for the Protection of the Seals.

Washington, March 21.—Official are reticent this morning respecting the contents of the reply of Lord Salisbury to the note of President Harrison of the eighth instant.

One gentleman, whose position entitles his statement to full credit, says that no great importance is attached to the reply.

It is inferred that the meaning of that statement is that the substance of the reply had been discounted and that it was not important in the sense that it contained nothing new.

Lord Salisbury's persistnce as shown in the correspondence on the subject between the two governments, and the intimation conveyed in the London dispatches of last Friday that the reply would reiterate his lordship's refusal to renew the modus vivendi, are believed to be a sufficient indication of the tenor of the communication received yesterday.

Certain it is that the president and his cabinet have been proceeding for some time as if upon the theory that the reply would show no change in Lord Salisbury's position, and as early as last Friday the United Press dispatches told of the protection of the seals.

In preparing orders to carry out that policy, Secretary Tracy has been busily engaged, so that on Saturday he excused himself to senators who called at the department. Saturday night the subject was under consideration by President Harrison until a late hour.

What additional steps will be taken by the government cannot now be stated. The reply will probably be transmitted to the senate but whether before or after the cabinet meeting to-morrow is not known.

There will be no special meeting of the cabinet to consider it; that body has approved a policy to be carried out by the president and it remains with him to be executed.

President Harrison this morning discussed Lord Salisbury's reply with Attorney General Miller and Gen. Foster. The reply is said to be quite lengthy and covers the Bering Sea situation with elaboration. Later, Gen. Foster called at the navy department and had a conference with Secretary Tracy. No unusual activity pervades the latter's department, all the necessary orders for the fitting out of ships having been issued last week.

This is taken as an indication that Lord Salisbury's reply is more pacific than his former note, and that he makes some concessions in response to the demands of the United States.

THE RAIN HILL TRAGEDY.

Police Hunting for More Victims.

Australia Will Not Release Her Hold on Williams to Allow Him Trial in England.

London, March 21.—The police have received some information which led them to-day to recommence digging at Rain Hill, on the theory that other victims of the murderer Williams, alias Deeming, may be buried there. Among the various fraudulent methods by which Williams made a living, it appears that he was at one time a fakir on the race courses under the alias of Wilson.

It is suggested that Williams should be brought back to England for trial for the Rain Hill murders for the reason that these murders antedated the Melbourne tragedy. It is not probable, however, that the Australians will be satisfied short of his trial and execution there.

TIN PLATE IN WALES.

London, March 21.—The depression in the tin plate industry in Wales is increasing. The Abercarno tin plate works in Monmouth have been closed. At the Abertillery works the operatives have received a month's notice of the close of contracts. Several thousand employes are thrown out of work.

THE TRUST DISSOLVED.

New York, March 21.—At a meeting of the holders of Standard Oil trust certificates held this morning at 26 Broadway, resolutions were adopted by over two-thirds majority declaring the dissolution of the Standard Oil trust.

CHARGED WITH FORGERY.

New York, March 21.—Isaac Morris, alias Frank Salma, has been arrested at 30 avenue D, this city, on a charge of obtaining by forgery $1,100 from Strauss & Co., of Chicago, where he was employed last month. He was remanded to await requisition papers.

OSBORNE WILL RESIGN.

London, March 21.—It is said that Captain Osborne will probably be offered a civil position in one of the colonies, about the same time as the release of his wife. The captain, it is expected, will soon resign from the army.

THEY CANNOT SURVIVE.

Valparaiso, March 21.—Several of the members of Balmaceda's congress, admitted to bail, are in such a wretched condition through prison abuse, that their lives are despaired of.

NITRATE TRADE.

Iquique, March 21.—The nitrate trade is again becoming active. Several vessels have started for Europe, and the mines will be opened about the beginning of next month.

PAGE'S BANK IN TROUBLE.

Painesville People Greatly Excited.

Most of the Depositors Are Poor People.

Crowds of Depositors Flocking to the Bank to Receive the Statement That a Settlement will Soon be Made.

Painesville, O., March 21.—The Painesville Saving and Loan Association bank closed its doors this morning.

The depositors are generally working people who are crowding around the building and threatening violence to the officials.

Col. R. K. Page, well known in railway circles and one of the most prominent capitalists in northern Ohio, is at the head of the concern.

No figures are obtainable at this time and the cause of the failure cannot be learned.

A notice on the door of the bank conveys the information that a settlement will be made with depositors as soon as possible.

The collapse of the bank was due to a refusal by the National Bank of Commerce of Cleveland to honor a large draft Saturday afternoon. The capital stock of the collapsed institution was $50,000.

A BACK NUMBER.

London, March 21.—A dispatch from Buenos Ayres states that the report of a proposed offensive and defensive alliance between the Argentine Republic and the United States originated at the time of the Chilean difficulty, had no stronger discussion at that time.

DIED FROM DRINK.

Bangor, Me., March 21.—G. F. Norotn, aged about 45, in the real estate and banking business at Salem, S. D., died suddenly this morning at the Windsor hotel from excessive drinking.

BETTER GIVE IT TO THE POOR.

Libau, March 21.—The czar has bestowed a gift upon Capt. Sargent, of the steamer Indiana as a mark of his favor and Russian gratitude. The gift has not yet arrived.

SENTENCES WERE SEVERE.

The Berlin Rioters Sent to Prison.

The People Much Surprised and Collections Being Taken Up for the Prisoners' Families.

Berlin, March 21.—The severe sentences passed upon the rioters of February 25, ranging from fifteen months to three years' imprisonment, are harshly criticised by the radicals, as it is claimed that the police provoked the rioting and the men only asked for work.

Money is being raised for the destitute families of the prisoners.

CHASING HIM UP.

Adelaide, Australia, March 21.—Deeming, alias Williams, is believed to have committed a robbery at this place in 1888. He was known by the name of Ward. The day after the robbery was committed Deeming sailed, with his wife and two children, fro South Africa.

A TOWN UNDER SIEGE.

Quilimane Besieged by Six Thousand Natives.

They Have Been Provoked Into Rebellion by the Portuguese Rule, Which Went Against the Grain.

Zanzibar, March 21.—The Portuguese town of Quilimane, capital of a district in Mozambique, is besieged by 6,000 natives, provoked to rebellion by the Portuguese rule.

Quilimane, which is a trading center of importance, with many European residents, is in danger.

The Mohawk, British torpedo cruiser, has gone to Quilimane, and a Portuguese gunboat, with 100 soldiers, is on its way there.

HURLED THROUGH THE AIR.

Fatal Boiler Explosion at East Jordon, Mich.

Six Persons Instantly Killed and a Number of Others Seriously, If Not Fatally Injured.

East Jordan, Mich., March 21.—The boiler of the East Jordan Lumber company's mill No. 2, known as the "big red mill," blew up at 7:30 o'clock this morning, instantly killing the following persons:

WILLIAM BEACH, aged 18, unmarried.
SIMON CARNEY, aged 26, unmarried.
PETER SHELDON, aged 22, unmarried.
JOHN BROWN, aged 20, unmarried.
BERT COOK, aged 30, leaves a widow.
EMANUEL HUNT, aged 40, leaves a widow and one child.

Those dangerously injured are: Sanderson Reinhard, badly injured about limbs; John Ringle, seriously injured about the head, will die; Anozie Christy, seriously hurt and recovery doubtful; James Smith, seriously injured.

In addition a score of other employes were more or less seriously injured.

The mill, valued at $10,000, is a total wreck. The cause of the explosion is still unknown.

BISMARCK REPORTED ILL.

The News Creates Consternation in Germany.

The People Were Preparing to Celebrate His Seventy-Seventh Birthday on April 1.

Berlin, March 21.—It is reported that Prince Bismarck was attacked to-day with a sudden illness.

In view of the condition of affairs here, the news has caused intense anxiety.

Many municipalities and other bodies throughout Germany have already begun their preparations to celebrate Bismarck's approaching 77th birthday on the first of April.

The illness of the prince is said not to be serious and the latest advices represent it to be no more than an indisposition.

Owing to the attack, he has given up his intended visit to Ratzburg, the capital of his duchy of Lauenburg.

BOLDER EACH DAY.

Anarchists Hold Sway in Milwaukee.

Anniversary of the French Commune

Celebrated by the Most Rabid Speeches.

McClaughrey is a Marked Man.

Incendiaries and Murderers Cheered by the People and Written Down As Heroes of the Age.

Milwaukee, Wis., March 21.—The Milwaukee socialists celebrated the anniversary of the French commune last evening. The large hall was crowded. Robert Steener, of Chicago, was the principal speaker. He gave an account of the days of the commune in Paris as viewed from an anarchistic point of view.

Every one of the communists and the French women who started conflagrations in all parts of Paris by using petroleum were proclaimed to be heroes and heroines, whose fame would be recognized in after years. He spoke of the state of affairs in Germany and the attitude of the present emperor.

The time was ripe, he said, for a general uprising of the downtrodden masses, and thousands of them stood ready for the sublime act.

Leaving German, Steener spoke of Chicago and Chief of Police McClaughrey, and soon had his audience wild with enthusiasm.

He talked of the meeting in Chicago Saturday night with which the police interfered, and assured his hearers that McClaughrey's time would come also.

"Refusing us permission to speak, to give utterance to the great sorrows which consume our hearts, will have only one consequence," he said. "It will force us to action, and then woe to those who have been the cause of our troubles.

"We do not want to take lives, neither do we want ours taken from us by starvation and persecution. We don't want to take property, neither do we want to be robbed of ours. An eye for an eye and a tooth for a tooth is our motto."

OHIO REPUBLICANS.

They Have Fixed Up a Plan of Campaign.

McKinley Will Not Seek the Nomination, But Rather Than See the Country Go to the Dogs He Will Take It.

Washington, D. C., March 21.—The Ohio gentlemen have all started for home. W. M. Hahn, chairman of the republican state central committee, ex-Attorney General D. K. Watson, and Editor Sam Flickinger went to New York. Secretary of State Daniel J. Ryan, State Senator D. B. Phillips, and Editor Joe Smith left for Columbus.

Mr. Hahn said: "Since Blaine's withdrawal the republicans of Ohio are very much inclined toward Harrison. Of course they would shout for Sherman or McKinley, provided either of them should be a candidate. So far as Sherman is concerned he told me that under no circumstances would he consent that his name should go before the convention.

"I believe he is sincere in this and that he is as much out of the race as Blaine.

"So far as McKinley is concerned he is not a candidate in the sense of seeking the nomination. I do not think he has any desire to make a contest against Harrison.

"If, however, it shall appear that McKinley is the stronger and the more likely to carry the close states, then the Ohio delegation will, I think, go solidly for him. It is my impression, however, that the delegation will go to Minneapolis unInstructed."

THE ARMY AND NAVY.

General Miles Talks On the Needs of the Country.

We Are in a Defenseless Condition and Steps Should be Taken at Once to Fortify.

Washington, March 21.—Gen. Nelson A. Miles in an interview speaking of the army and navy national guard said:

"In proportion to our wealth and population the army has been reduced to the extreme minimum. It is small, but it is most efficient.

"In intelligence, courage and patriotism it will compare favorably with any military force in the world. The same may be said of the national guard; a more intelligent and patriotic body of men does not stand on the face of the globe under any colors.

"Yet in order to have them properly equipped and properly prepared, so that they may be one of the pillars of strength upon which this great republic rests, one of two things must be done, either the press of the country must tell the plain truth and educate the public mind up to our real condition and necessities, or we must meet some disaster that may check our progress and burden us with a national debt that would last for another generation.

"There is some danger in our geographical greatness.

"Our population may soon be so large that people of the interior will become indifferent to the interests of those living on the frontier, and those who dwell on the frontier become careless as to the welfare of those who inhabit the interior.

"Too much is expected of our navy. It is almost ludicrous to think of holding the navy responsible for 4,000 miles of frontier occupied by 10,000,000 people, the possessors of one-twelfth of the country's wealth. The most a navy can do it to protect the commerce of a country and cope with foreign fleets.

"Fortifications will some day receive from the American people the consideration such defenses deserve. Let us trust they may never be needed before we have them."

"Cannot some mobilization of the regular army and the national guard be brought about?" was asked.

"I believe it will be," replied the general. "The necessity for such an assembly must be apparent to every thinking man. In accordance with arrangements which were made at a convention held last November, there will be a national guard encampment at Chicago in the month of August, 1893.

"The object of this encampment will be to promote the efficiency of the national guard, to give officers experience in the handling of large bodies of citizen troops and to promote fraternal feeling between the state troops from all parts of the country.

"Whether congress furnishes the necessary transportation or not, the troops will undoubtedly assemble at that time for a great national camp and valuable field manœuvres. The matter is not being pressed before congress just now because of the coming election, but when the political campaign is all over the question will be brought up and pushed to a conclusion. There will be ample time in which to make the necessary arrangements."

A NEW ERA IN SHIPPING.

The Wetmore's Trip Has Opened Navigators' Eyes

The Erie Canal Must Be Enlarged and Deepened or Its Usefulness Will be Lost.

Albany, N. Y., March 21.—The trip of the whaleback Wetmore, which took a cargo of grain from the lakes to Liverpool, has alarmed the canal interests of the state of New York.

They are now demanding the expenditure of over $3,000,000 to lengthen the remaining 11 locks on the Erie canal so that two boats can pass through at a time and also to deepen the canal throughout all of its length, and to make several short cuts, which will reduce the time between Albany and Buffalo.

The deepening will not allow the passage of any larger boats than are used at present, but the plan is to multiply steam canal boats which tow one or two barges.

The active competition of the railroads has also had its effect in the making of this demand. There is certainly a crisis in the efforts of the Erie canal, and if it is not improved speedily its importance as a means of transit will not be as great as formerly.

Buffalo, which has also resisted the idea of a ship canal around Niagara Falls demanded by the rest of the state, is now most active with all the state in the demand for the large appropriations. The present legislature, which is democratic in both branches, is not disposed to vote more than one-sixth of the sum asked for because it is trying to make a record for low taxes.

ARMS FOR THE MEN.

Sensational Story Telegraphed from Mansfield.

Mansfield, O., March 21.—The union lockout at the Eclipse stove works is developing in interest. The 60 union members of the city called at the stove works for the purpose of holding a conference with the non-union members brought by the proprietors from Hamilton and Cincinnati.

The managers became alarmed and ordered the locked out members to retire, which they did.

After the unsuccessful attempt at holding a conference one of the non-union members says the proprietors purchased for each man a large revolver with instructions to use it when necessary.

The report spread like wildfire, and a mass meeting of all union men in the city was called.

About 600 were in attendance, and the matter of the arming of the non-union men was fully discussed. It was decided that the strikers should not use violence.

TORTURED UNTO DEATH.

A Horrible Story Comes from the West.

A Ranchman Who Was Defending His Property, Made to Suffer Horribly by Mexican Outlaws.

Tombstone, Ariz., March 21.—The Indians have always been known for their devilish ways of torture, but it has remained for a band of Mexican bandits to cap the climax.

"Dutch" Henry's band of horse thieves raided Henry Wither's ranch on the Garrita river recently, driving away all his stock. Withers started after the band single-handed, and succeeded in shooting down three of them from ambush before they discovered that only one man was pursuing them.

They succeeded in capturing him as he was trying to get away. Death was his sentence; but shooting was too easy for a death. Withers was taken out on the hot sand beds and left to lie naked for six hours, fully exposed to the sun's rays.

This was not enough, and he was then carried, still nude, to a bed of cactus bushes, where he laid on the sharp points. He was bound tightly to a stake, and then a large ant hill, which was near by, was torn open with sticks and he was left to his fate. The insects swarmed out and over Withers' body, and within two hours he was dead from their bites. The ants did not leave him alone, however, until every particle of flesh was eaten from his bones.

A prisoner of the band was taken where he could witness the whole affair, and was afterwards turned loose and told to tell the people that that would be the future punishment of all who tried to kill a member of the band.

AT THE AGE OF 89.

The Rev. Dr. Thomas Sproull Dies at His Home in Allegheny.

Pittsburg, March 21.—Rev. Thomas Sproull, D. D. LL. D., died at 1 o'clock this morning at his home, 759 North avenue, Allegheny. He was 89 years of age. Death resulted from general debility. The deceased was probably the most prominent in the reformed Presbyterian church.

Dr. Sproull was pastor of Reformed Presbyterian churches in Pittsburg and Allegheny for many years. He was also a professor at the Western Theological seminary a long time and was widely known throughout the United States.

POSTMASTERS ADJOURN.

Washington, March 19.—The committee representing the first and second class postmasters appointed by the recent conference of these officials in this city to present to the committees of postal affairs of the two houses of congress the recommendations made by the conference have concluded their work and leave for their homes to-night.

RAILROAD DEAL.

Evansville, Ind., March 21.—Another deal for the Evansville street railway plant is on. Russell B. Harrison, son of President Harrison, will be a large stockholder and probably an officer in the new company.

GOLD EXPORTS.

New York, March 19.—Exports of gold from New York for the week ending to-day were $1,552,209; of silver, $410,570. Imports of gold were $1,341,092; of silver, $2,088.

MORNING SUICIDE.

David Schaefer Ends His Life With a Shotgun.

Despair Over His Wife's Continued Illness Apparently the Cause of the Deliberate Deed.

"How can a man without means, not able to work, support himself?"

This sentence from the last letter of a suicide forms a clue to the causes that led David Schaefer to take his own life this morning.

David Schaefer and his family live at 724 Oak street, back of the court house, and on the lower floor of the building Schaefer carried on a small picture frame business.

This morning about 6 o'clock his son Otto was startled by two loud shots, and rushing to the kitchen, which is in the rear part of the second floor, he found his father, lying back in a chair dead, the blood streaming down his face, and the shot gun, with which the work had been done, was just slipping to the floor.

He at once called his brother Fritz, and soon the whole family was alarmed, except Mrs. Schaefer, who is very ill, and the terrible news was not told her until later in the day.

From all appearance Schaefer had deliberately planned to take his own life. He wrote a note just before he did the shooting, then he fired one barrel of the shot gun into the wall, to try it, and immediately turned the other charge on himself, the load taking effect in his head and neck, causing instant death.

Financial embarrassment, his own bad health and the illness of his wife, had preyed upon his mind until it unsettled him, and he resolved to end his troubles in this way. Yet he gave the family no intimation of what was in his mind, for they spent a happy evening together yesterday, and played cards until late into the night.

The only thing he ever said to indicate that suicide was on his mind was yesterday, when his wife, who has been ill with nervous trouble for some nine weeks, called him to her side and said that he might as well take her to the river and end her life, as she would never get well.

To this Schaefer answered, "No, mother, rather than see you die I would take my own life. The children can spare me better than they can their mother."

The note left by Schaefer is ramblingly written on both sides of a letter head, and is in both German and English. It reads as follows:

"How can a man without means, not able to work, support himself. I believe I have not an enemy, but will say to everybody, look out for —— ——, he is a crooked crook.

"DAVID SCHAEFER.

"To my children I meant to say. It is not necessary to hypocrite to sustain living, and if my physical strength did not give out I believe I would have been a happy man in a happy family. I wish you a happy farewell.

"YOUR FATHER.

"My boy, I am sorry this all to happen on your birthday, but it has to be done when the time is here. I can command myself, but not time.

"I want to say that I never drank to get drunk. I am awake since 3:25. I think I know what I am doing."

From the disconnected meaning of this note it is very evident that Schaefer's mind was unbalanced.

David Schaefer the suicide, was 51 years old, had been married 25 years and had lived in this country 21 years. He leaves a wife and eight children in poor circumstances. One of his daughters is married.

Coroner Beckwith was called at once and is investigating the case.

Schaefer was a member of the German Lutheran church on John street, and also belonged to the A. O. U. W. and several German societies.

AMONG THE SPORTS.

Interesting Gossip From the Diamond.

Words of Praise for the Toledo Club Coming Entirely From Disinterested Sources.

Since Toledo's club was drawn the enthusiasts have begun to warm up, and the welcome sun of to-day caused the enthusiasm to bubble over. While all the clubs in the Western are full they will be strengthened as fast as it can be done, and in such a way that no one club will have the better of it.

The new men are all placed by the player's committee, and for the first time in base ball history the magnates in the western were trying to help each other rather than cut each other's throats as has been done in the past.

Bowman, a catcher, Tom Nagle, and Frank Scheibeck have been signed. Other good men will be under the Western's banner before the bell taps, and Toledo can rely on seeing the best base ball that has ever been played in this city.

Ferson, who was drawn to pitch by Columbus, has been, by the sanction of the secretary and players' committee, transferred to Milwaukee, and Henry O'Day, who was signed after the meeting, secured in his stead. With the acquisition of Ferson, Milwaukee will play Twitchell in the field, and may occasionally put him in the box, and Pabst was released and turned over to Kansas City and will replace Lyttle in the outfield. Kansas City drew Dugdale and Rollins as catchers, and will retain Rollins. That city will also be given Tom Nagle, who was signed after the meeting was over, or a new man yet to be signed. Indianapolis will have as catchers Quinn and Dudgale, or, if Kansas City does not want Nagle, be given an option on the player.

In order to make it an object for Toledo to play winning ball, Mr. Gunnells offers big prize money for his players if they win the first series.

The Bee Prints the Ball News.

The Chicago Herald is stuck on the Toledo club. So is Toledo, and the Bee was the only Toledo paper to tell its thousands of readers who were the members of the new team, where they had previously played and what they were capable of doing. Read the Bee for accurate base ball news, minus all gush.

The Umpires.

President Williams, of the Western league, has announced the names of the umpires who have been chosen for the coming season. They are: John McQuaid, last year with the National league; "Billy" Serad, the ex-pitcher of the Cincinnati and Toronto, Ont., clubs; Daniel Corcoran, who umpired last season for the Illinois-Iowa league, and Charley Snyder, who was with the Brotherhood in 1890.

Ives is Champion.

Young Ives, the billiard player, has defeated Wizard Shaefer and is now champion of the world. The game was played in Chicago Saturday, and resulted as follows:

Ives—0 27 68 1 9 6 13 9 18 60 0 1 5 13 1 38 8 1 45 38 48 57 1 0 21 18 3 0 0 1 12 10 0 0 35 16 13 18 3 0 2 1 0 74 1 19 16 0 10. Total, 800.

Best run, 95; average, 16 15-49.

Schaefer—45 0 38 5 0 6 9 29 2 13 0 11 3 15 32 43 1 0 2 18 2 0 35 0 3 30 34 8 19 1 6 18 1 1 0 3 1 26 0 2 5 0 0 0 3 2 3 23. Total, 469.

Best run, 45; average, 10 19-48.

Schaefer was not at his best, while Ives seemed to make everything he shot at. Another match will be played, and Schaefer's friends are confident that he can regain his lost ground.

Thanks, Ed.

* * * It is the opinion of the writer that with the possible exception of Toledo (who is particularly strong in pitchers), Columbus has about the best team in the league. Yet this does not mean that we shall win the championship, for this year, as never before, will astute management show itself in the records of the teams. The clubs are so evenly matched that the organization that is the best handled will come first under the wire.—Ohio State Journal.

On the Bench.

Charley Morton has signed to manage the Minneapolis team for "Baron" Hache. Harrington will probably handle Indianapolis. Dave Rowe will have Omaha, Jimmy Manning Kansas City, Bob Leadley or Sid Farrar St. Paul, McGregor Toledo, Cushman, Milwaukee and Schmelz Columbus. That is quite an aggregation of managerial talent.

To Be Released.

Ten players who had signed regular contracts will be released in a few days. They were taken when no better men were in sight, but now they are not needed. They are as follows: Pitchers, W. H. Bishop, Ed O'Neill, Lewis Johnson, John W. Keenan; first basemen, Andrew Knox; second, Paddy Lyons and W. J. Delaney; short stop, John Burns; fielders, John Gans and Lewis R. Camp.

OHIO PENSIONS.

Buckeye Veterans and Their Dependents Who Have Been Granted Pensions.

Washington, March 21.—Pensions have been granted to the following residents of Ohio:

Original—Alfred Kinney, Jacob Service, William Martin, William A. Wilcox, Lewis P. Bishop, Uzel B. McIntyre, William Schneider, William A. Brown, Philip Coons, Sylvester Potts, Elias Priddy, George B. Alexander, John P. Mathews, James B. Hamilton, John King, Levi W. Thomas, John Adam Zellers, George W. Snyder, Frederick Dehns, Robert Stewart, Nelson Roby, Francis D. Parker, Hezekiah Thomas, John P. Hicks, John J. Hardy, George Litchy, Rudolph S. Cas, Joseph Snow, Henry Edington, Lemuel P. Hibbard, Charles W. Holl, James Hunt, Frederick Meyers, John Carroll, Philip Fichian, Matthias Trefzer, James Russell, Russell Rice, John C. Nelson, Joseph A. Rouze, August Bressler, Edward M. BLAINE'S CONDITION.

Washington, March 19.—Sec. Blaine continues to improve, and devoted his time this morning in catching up with his private correspondence.

Assistant Secretary of War Grant has recovered from his illness and to-day resumed his duties at the department.

Mr. Warren D. Wentz
of Geneva, N. Y.,

Tells of His Fearful Sufferings After Gastric Fever and His Cure by

Hood's Sarsaparilla

All who know Mr. W. D. Wentz give him the best of recommendations for honesty and integrity. For many years he has worked for Mr. D. P. Wilson, the harness maker and member of the Geneva Board of Health. He says:

"I was taken sick last October with gastric fever and my chance for recovery was considered almost hopeless. After 7 weeks the fever slowly left me, but I could not eat the simplest food without terrible distress. It seemed that I had recovered from the fever to

Die of Starvation

I took pepsin compounds, bismuth, charcoal, cod liver oil and malt until my physician confessed that his skill was about exhausted and he did not know what else to try. Everything I took seemed like pouring melted lead into my stomach. I happened to think I had part of a bottle of Hood's Sarsaparilla that had been in the house for two or three years, that I found had benefited me previously for dyspepsia. I began taking it and soon began to feel better. I have now taken a little over two bottles and can truthfully say I feel well again and can eat anything without distressing me, even to

Pie and Cheese

which I have been unable to touch for years. The English language does not contain words enough to permit me to express the praise I would like to give to Hood's Sarsaparilla." W. D. WENTZ, 18½ Castle St., Geneva, N. Y.

A Good Voucher

"I have known Mr. Warren D. Wentz for many years and can vouch for him as a man of veracity and one well known about here. I have sold him several bottles of

Hood's Sarsaparilla

during the past few months." M. H. PARTRIDGE, Druggist, Geneva, N. Y.

Hood's Pills Cure **Liver Ills**

To the Ladies of the Hou

GOOD MORNING MADAM.

Allow me, through the columns of this paper, to solicit your order for the NO. 9. It's the lightest running, and only perfect Family Sewing Machine in the world today. A fair trial (which is free to all) will convince you of this fact. Sold on easy payments. No interest—Payments to be made at office. Established over 40 years. I want 1,000 second-hand machines at once. All kinds. Needles 25c. per doz. All machines repaired. Work warranted. See me and get prices B-4-you buy or trade machines. I can save you money on any machine made. Call at office or order by mail.

Respectfully,
A. AUSTIN, 317 Adams St.

Heiskell's Ointment

Is certainly a Remarkable Remedy for

Skin Diseases.

IT CURES even when all other remedies fail. The simple anointment, without the aid of internal medicine, eradicates every form of Skin Disease, from Simple Pimples to the most Obstinate Eczema.

50 Cts. per Box. Sold Everywhere.

Write for book, "*Hints for Kitchen and Sick Room*," free.

JOHNSTON, HOLLOWAY & CO. Philadelphia.

All the organs of the body are roused to healthy, vigorous action by Dr. Pierce's Golden Medical Discovery. More than all, the liver—and that's the key to the whole system. You have pure blood or poisonous blood, just as your liver chooses. The blood controls the health, the liver controls the blood, the "Discovery" controls the liver.

Take this remedy in time, when you feel dull, languid, and "out of sorts," and you can prevent disease from coming. Take it in any disease that depends on the liver or the blood, and you'll have a positive cure.

For Dyspepsia, Indigestion, Biliousness; Bronchial, Throat, and Lung affections; every form of Scrofula, even Consumption (or Lung-scrofula) in its earlier stages; and for the most stubborn Skin and Scalp Diseases, its the *only* remedy so unfailing and effective that it can be *guaranteed*. If it doesn't benefit or cure, you have your money back.

"WORTH A GUINEA A BOX."

BEECHAM'S PILLS

For SICK HEADACHE,

Dizziness, or Swimming in the Head, Wind, Pain, and Spasms at the Stomach, Pains in the Back, Gravel, and flying Pains in the Body, Rheumatism, etc.

Take four, five or even six of Beecham's Pills, and *in nine cases out of ten, they will give relief in twenty minutes;* for the pills will go direct to and remove the cause, *the cause* being no more nor less than wind, together with poisonous and noxious vapours, and sometimes unwholesome food. Of all druggists. Price 25 cents a box.

ADAMS
NATURAL GAS BURNERS FOR STEAM BOILERS.

Toledo, O., Dec. 9, 1891.
F. T. Adams, Esq., City.
Dear Sir: We take pleasure in recommending your Natural Gas Burner for Steam Boilers, with your system of setting, as being the best we have ever seen. The flame is clear, combustion perfect, and quantity of gas required is less than with any other Burner we have seen.
Yours very respectfully,
ARBUCKLE, RYAN & CO.
Use this burner and you will want no other. Call on or address,

FACTS FROM FINDLAY.

Democrats Nominated a Strong Ticket.

Hon Thomas Mahon Again at the Head of the Ticket--Praise for the Big Bee.

Findlay, O., March 21.—(Special)—The democracy of Findlay held a large and harmonious convention at the Turner Opera house on Saturday night and nominated the following exceedingly strong ticket which will receive the united support of the entire party the coming election: For mayor, Hon. Thomas Meehan, the present incumbent, by acclamation; for marshal, Luther M. Meyers; city solicitor, Judge Pendleton.; city commissioner, Partee C. Fritch; city engineer, U. K. Stringfellow; gas trustee, Wm. Martin; water works trustee, S. J. Siddall; cemetery trustee, Wm. Smith; justice of the peace, I. A. Valentine. Wm. D. Joy presided over the convention in his usual happy manner and Fred H. Glessner acted as secretary.

Small Fire.

A frame dwelling used as a stock house and blacksmith shop at the Union window glass works at West Park, was burned down at an early hour yesterday morning. It caught from an overheated stove. The loss will not be very heavy and it was partially insured.

Off for Columbus.

Sheriff Barton left Saturday evening for the penitentiary, having in charge Lantz, Ludwig and Harvey, the convicted wheat thieves. The two former will remain two years and the latter one year. Deputy Clerk Danelson and Hon. E. T. Devrue accompanied the sheriff.

Appreciated.

The mammoth 16-page compendium of the world's doings known as the Busy Bee, was duly appreciated by all subscribers and purchasers on Saturday evening. The Bee by its enterprise and spirit of "get there" has gained quite a colony of friends in our city in the past year. Each day adds some strong news point in its favor.

ONE CENT A MILE.

Via Cincinnati, Hamilton & Dayton railroad to the state encampment of the G. A. R., at Piqua, O., May 10 to 12, inclusive. Tickets will be good going May 9 and 10, and be good returning until May 14, inclusive. Tickets will be on sale at and good from all stations on the C., H. & D. in Ohio.

Wabash to St. Louis.

Improvements for the Toledo Postoffice.

The Week at Trinity Church—Cars on the Robison Lines—The Camp Grounds—Miscellaneous Matters.

CARS WILL BE FURNISHED

For Those Going to the Dodge Reception After the Concert.

To-morrow evening the Robisons will furnish cars for the Glee club and party to convey them from Mr. Dodge's residence to the opera house, at 7:30 o'clock. At the conclusion of the concert the members of the club, and those desiring to attend the reception will find nine cars at the corner of Jefferson and St. Clair streets for their accommodation.

PERSONAL INJURY.

One Thousand Dollars Wanted from the Consolidated Company.

In common pleas court to-day Charles McCord filed action against the Consolidated Street Railway company to recover $1,000 damages for personal injury.

It seems the plaintiff attempted to drive his milk wagon across the track on Broadway, near the water works, and a motor car ran into the vehicle, smashing up the milk business in general and injuring the driver. Carelessness and fast running is alleged.

STRICKEN WITH PARALYSIS.

Ex-Alderman Nick Mathews in a Precarious Condition.

On Saturday evening when about to leave his work at the express office, where he is employed, ex-Alderman Nick Mathews was stricken with paralysis, and fears are entertained for his recovery. He was removed to his home on Maumee avenue, where he now lies in a very precarious condition. This is the second time Mr. Mathews has been affected. His friends hope for the best, but are solicitous.

"SOCIAL PURITY."

Preparations Completed for a Two Days' Conference.

The ladies having in charge the Social Purity conference to be held in this city this week have their preparations completed, and a most interesting and profitable session is promised. The program, which has been printed in full in the Bee, indicates the scope of the papers to be given. The meetings will be held in St. Paul's church, the first one to-morrow evening, when several of the city clergy will speak, and Rev. Jeannette Olmstead will deliver the address of the evening on "The Ideal in Social Life."

HIS NIBS THE BARON.

A Laughable New Comedy Opens at the People's To-night.

A laughable comedy, His Nibs the Baron, will open a week's engagement at the People's this evening. Lottie Winnette heads the company, and the cast contains some well known fun makers, such as James Quinn, who at one time played the Irish Girl in Over the Garden Wall, Charles Robinson, Marie Clayton, and others of equal note. A number of clever specialties will be introduced, including the mirror dance by the Laziolia sisters, an act that has been copyrighted by Mr. Winnette.

EXPENSIVE FUNERALS.

Rev. Dr. Quigley Talks of Them and Says a $5 Coffin Will Do Him.

During the course of his sermon at high mass yesterday Rev. Dr. Quigley took occasion to refer to the expensive funeral arrangements of the present day. He roundly rated those who go beyond their means to make a display, and referred incidentally to the costly system instituted by the undertaking fraternity.

The reverend gentleman created something of a sensation when he stated that in his will he had distinctly provided that he should be buried in a coffin that must not cost over $5.

TWENTY-FOUR NEW CARS

Almost Ready for Use on the Robison Lines—A Midnight Service.

The Robisons now have 24 new box cars which will be in use in a few days. Yesterday there were two Belt Line cars disabled, due to the fact that in trying to save the machinery from the fire the iron was weakened or the temper taken out of it, causing constant breakage from this source. However, the old iron will be immediately taken off and new put on. Said Mr. Robison: "Cars will now run on the Huron street line every six minutes until 12 o'clock p. m., and beginning tomorrow night the last car around the Belt line will leave the transfer station at 12:30 o'clock instead of 12, as heretofore."

DOWN SHE GOES.

The G. A. R. Will Go to Piqua Cheap.

At the recent meeting of the passenger department of the Central Traffic association, it was decided to make a rate of one fare for the round trip to the state encampment of the Grand Army at Piqua, O., May 10 to 12.

The Toledo & Ohio Central and the Pennsylvania companies desired to make the rate a cent a mile, but were defeated.

Railroad men thought that the rate authorized would not stand and they surmised rightly.

To-day General Passenger Agent E. O. McCormick, of the C., H. & D., notified Toledo agents that the former circular issued by his road regarding the Piqua rate was cancelled and that tickets could be sold at 1 cent a mile both ways.

The other roads will fall in line.

JOAN OF ARC.

An Open Meeting in Which a Live Topic Will Be Discussed.

Joan of Arc assembly, 10062, held a closed meeting at Clark's hall, Saturday night. An open meeting was to have been held, the program being a debate, but on account of the absence from the city of one of the leaders of the debate, it was necessary to postpone the meeting. The postponement was announced, but several failed to see it and quite a number were at the hall Saturday evening expecting the meeting would be open. The members are very sorry that any one should have been disappointed or inconvenienced, but no blame attaches to any one. The debate will be held on Saturday evening, March 26. The discussion will be, "Which Benefits Women Most—Woman Suffrage or Labor Organization?" The leaders in this debate are well qualified to make the discussion an interesting one, and it is hoped the attendance will be large.

THE MILITIA

Are Dead Set Against the Permanent Camp Grounds.

At the meeting of the Ohio National Guard association, at Columbus, the committee on legislation filed a report vigorously protesting against permanent camp grounds. It is claimed that the militia all over the state opposes the measure. The men don't want to encamp at the same place year after year. If the measure is adopted, is was argued that the men whose time expires will not re-enlist, and that it will be difficult to keep up the organization in consequence. The committee called on Gov. McKinley and acquainted him with the tenor of the action taken. The report was signed by the following: Vice-President Col. Anthony, Third regiment, Springfield; Major Sterren, Troy; Col. Hunt, First regiment, Cincinnati; Col. Geiger, Eighth regiment, Alliance; Lieut.-Col. Fletcher, Fourteenth infantry, Columbus; Capt. McMaken, Toledo Cadets, Toledo; Capt. Gregg, Fifth regiment, Cleveland.

A LAUGHABLE LETTER

Received by Postmaster Brown Inquiring After Friends.

Many curious letters are received by Postmaster Brown from day to day, some curious in their request and others curious in their get-up. Following is a sample of the latter kind:

AT TRINITY CHURCH.

Appointments Made by Rector Scadding for the Week.

Services and appointments at Trinity church this week will be as follows:

Monday—10 a. m., clericus; 12:05, midday service and address by Rev. J. W. Sykes; 2 p. m., Daughters of Trinity; 2 p. m., Relief society; 4:30 evening prayer.

Tuesday—12:05, midday service and address by Rev. E. Watt; 4:30 p. m., evening prayer; 7:30, confirmation class; 7:30 p. m., Girls' Friendly; 8 p. m., calesthenic class.

Wednesday—12:05, midday service and address, Rev. D. A. Bonnar; 7:30 p. m., evening prayer and lecture by Rev. Rufus Clark; 8 p. m., Brotherhood of St. Andrew; 8 p. m., Knights of Temperance.

Thursday—12:05, midday service and address by Rev. Rufus Clark; 4:30, evening prayer.

Friday—12:05, midday service and address, Rev. W. C. Hopkins; 4:30, litany and meditation on "Anger;" 7:30, teachers' meeting.

Saturday—12:05, midday service and address, Rev. W. H. Bamford.

A cordial invitation is extended to all to attend the midday service. Cards giving hymns and full service will be provided.

SUPERINTENDENT PEELAR

Meets Some Former Toledoans in California.

A Number of Interesting Railroad Items—The Coal Meeting—Rates to Toledo—C., H. & D. Wreck

General Superintendent T. M. Peelar, of the Ohio Central lines, is enjoying himself and regaining his health at San Diego, California. He is making Hotel Florence his headquarters. He writes that he has met E. A. Kinney, who was formerly train dispatcher on the Toledo & Ohio Central railroad. Mr. Kinney has prospered and is now superintendent of the San Diego, Cuymaca & Eastern railroad. It is not a large road, but runs through a beautiful country. It is lined on both sides almost continuously with lemon and organge groves. Mr. Peelar also met at San Diego another former Toledoan, Harry Day, a former conductor on the T. & O. C., who is now on a western line.

At the Coal Meeting.

General Manager J. M. Ferris, of the Ohio Central lines, General Manager A. G. Blair, of the Wheeling & Lake Erie; Hudson Fitch, general freight agent of the Ohio Central, and Geo. G. Hadley, of the Phoenix Coal company, are at Pittsburg to-day attending the big coal meeting.

C., H. & D. Cars Ditched.

A car on the south bound C., H. & D. freight train jumped the track at a curve near Tadmore yesterday morning and ditched six cars. No one was hurt. The wreck blocked the road for some time.

Contracts with Twenty-One Posts.

Twenty-one Grand Army posts in this territory have contracted with the Cincinnati, Hamilton & Dayton and the Chesapeake & Ohio railroads for transportation to the G. A. R. national encampment at Washington in September.

Bottles to Toledo.

It seems the joint rate committee authorized a rate of 13 cents per 100 pounds on bottles from Streator Ill., to Toledo and the rate was put into effect by the Wabash railroad. The Pittsburg freight committee raised an objection on this rate as compared with the rate of 15 cents from Pittsburg to Toledo. Accordingly the Wabash has consented to withdraw the rate.

Clover Leaf Suggestions.

The Toledo, St. Louis & Kansas City railroad suggested slight amendments at the last meeting of the freight committee to the forms of live stock contract and leases as originally submitted for vote. They were discussed and concurred in. The New York Central and the E. & T. H. also offered suggestions.

Indefinitely Postponed.

Inasmuch as the fifth class rates to Chicago from other points have already been adjusted on basis of 12 cents per 100 pounds, which is the fifth class rate from Toledo, Detroit and Findlay to Chicago, the freight committee has decided that further consideration looking to a restoration of the 13 cent rate from Findlay be indefinitely postponed.

Cinders Here and There.

J. M. Osborn, division freight agent of the Wabash, is out on the road to-day.

Commercial Agent C. T. Wight, of the B. & O., is expected home from Pittsburg to-day.

The C., H. & D. expects to take 150 people out of Toledo to the Harriman, Tenn., land sale.

Coal business is picking up on the Wheeling & Lake Erie, and will continue to do so until the first of April, when the busy season begins.

John Gunckel went out on a trip over the Wheeling this morning. His friends say that he took a bent pin and a piece of string with him.

The new Toledo & Ohio Central train went out of Toledo for the first time this morning, with a big load of passengers. It promises to be the most popular and best paying train on the road.

PRESIDENT PARSONS

Submits His Annual Report to the Gas Trustees,

Showing the Work for the Year—Figures and Statements Relative to the City Plant.

President John E. Parsons has completed his report of the work of the city natural gas trustees for the past year, and it is given in full below:

City of Toledo,
Natural Gas Department.
Toledo, O., December 31, 1891.

To the Mayor and Common Council of the City of Toledo.

Gentlemen: The board of natural gas trustees respectfully submit, for your information, the following report of the operations of this department, for the year ending December 31, 1891.

Cash Receipts During the Year.

The cash receipts, from all sources, during the year, were $538,805.65, to which should be added $36,721.56, being the cash balance on hand December 31, 1890; making the total cash receipts of the department, during the year, $575,527 21.

Cash Disbursements During the Year.

The cash disbursements during the year, by orders drawn on the city treasurer, were $574,913.50, leaving a balance of $613.91 in cash on hand December 31, 1891.

Indebtedness Incurred and Unpaid During the Year and Previous Expenditures.

The indebtedness incurred during the year by the department for pipe, fittings, construction, and gas wells, and for which certificates of indebtedness were issued, amount to $220,804.50; all other indebtedness incurred for pipe, fittings, construction and sundry accounts amount to $73,747.16; making a total indebtedness incurred, during the year, and remaining unpaid at this date of $294,551.66; showing a total expenditure during the year by the department of $869,464.96, to which should be added the expenditures of 1889 and 1890, which amounted to $312,278.40; leaving the total cost of the city natural gas plant to date $1,181,743.36, which sum was expended as follows, viz:

For main pipe line, 41.44 miles	$381,880.48
For connecting wells with main line, 7.43 miles	14,668.89
For double 8-inch submerged line across Maumee river at Bowman st., Ninth ward, city	14,277.19
For single 8-inch submerged line across Maumee river, at Adams st., Third ward, city	7,338.50
For high pressure lines laid within the city, 16.42 miles	100,078.23
For low pressure, or distributing lines, laid within the city, 74.52 miles	354,227.60
For gas territory, gas leases, and wells	143,093.99
For telephone line, 44 miles in length	4,253.87
For making 6,216 service connections	46,943.17
For material, tools, furniture, fixtures, etc., (on hand)	34,679.80
For real estate, lots No. 1 and 86, Earl's second add., city	213.55
For general expenses, since date of organization of the department	80,088.09
Making a total of	$1,181,743.36

In this amount is included the sum of $46,466.66 for work done upon low pressure lines previous to December 31, 1891, but on which the final estimates were not complete at that date; this sum is not embraced in the report of the auditor.

The foregoing figures show the City Natural Gas plant to have cost nearly a half million dollars more than the estimates made by this board in the summer of 1889. These estimates were made upon the basis of proposals received at the time from responsible parties under bonds to furnish the necessary pipe, fittings, and construct the lines. The estimates were also made upon a cash basis, and in competition between the leading manufacturers of gas pipe and fittings, and between the best known contractors for constructing natural gas plants, in the country. To this sum lost to the city in building the plant, should be very properly added a half million of dollars, which the city should have received from the sale of gas, from the splendid supply of high pressure gas then owned by the city at Stewartsville.

By reason of the litigation, instituted and carried on by the emissaries of the Standard Oil company, the completion of the plant was delayed for over two years, and the city has been made to suffer a loss of over a million dollars. The records of the various courts, in which injunction and other suits were brought, to delay and defeat the enterprise and throttle the will of the people, will disclose the names of some of those who are responsible for this great loss to the city of Toledo.

Construction of the Plant.

When the last annual report of this department was prepared about seventeen miles of the main line had been completed, and some of the largest wells in the Stewartsville field was connected with the line; the balance of the main line was being laid as rapidly as the season of the year would allow.

Early in April the main line was completed to a point on the east side of the Maumee river, opposite Bowman street, and from there a high-pressure 10-inch line was continued along Oak street to Bridge street, East Toledo; and from that point an 8-inch submerged line was laid across the Maumee river to the foot of Adams street, and a distributing line, north and south on Water street; and on the 9th day of April the City Natural Gas department entered into the first contract to supply gas to the citizens of Toledo.

The work of laying the double submerged line from the east side of the river to the foot of Bowman street, and laying the high pressure lines within the city, was pushed to completion during the early summer. The trustees found that, on account of having to use the natural gas bonds (then in litigation) instead of the cash proceeds from the sale of them, the original natural gas fund of $750,000 was exhausted, and that they were without means to pipe the city. The legislature, during its session of 1890-91, had enacted a law authorizing cities of like grade and class with Toledo, having a natural gas plant, to pipe the streets for the distribution of natural gas, and the expense so incurred to be assessed against the property abutting on the streets or alleys, where the pipe was laid; the trustees endeavored to pipe the city under this plan, and advertised several times for proposals, but received no bids. After some delay they decided to invite proposals to pipe sections of the city, pledging a portion of the income from the sale of gas, from the lines so laid, to the contractor; by this plan many miles of distributing pipe were laid in the city, and certificates of indebtedness were issued to cover the amount of these contracts.

In order to meet the pressing demands of over 7,500 citizens who wished to be furnished with gas (many of whom desired to change from the Northwestern to the city line before November 1, the date when their contract should expire with that company), the trustees decided to purchase the necessary pipe and fittings, and lay the same under the directions of the department, when parties desiring the gas would advance a portion of the expense required to lay the line; under this, the former plan, the department laid about 75 miles of distributing lines within the city.

During the summer and early fall the department furnished gas to a number of manufacturers. The supply was ample and satisfactory until the cold weather set in, and the demands of the 6,000 domestic consumers, then on the line, obliged the trustees to shut off all manufacturers from using gas during the winter, and even then, with the decline of rock or well pressure, it was found impossible to furnish a satisfactory supply of gas, in some sections of the city, during the winter.

The trustees hope and believe that the troubles experienced by the department, from lack of pressure, can be cured during the coming summer, by connecting and completing the system of distributing lines in the city, as originally designed in laying out the city plant; and also by laying larger lines where needed. The trustees feel that steps should be taken, at once, by the city, to enable the board to develop the high pressure gas territory owned by the city in Perry township, and to lay the necessary connecting lines from this field to the main line. They also advise that provision should be made to purchase some of the high pressure gas wells, within reasonable distance of the main line, and which are now offered to the city. They also recommend that (on account of the decrease in rock pressure in the Stewartsville and Bloom township fields, where the city has valuable gas rights and wells) pumps should be placed in the main line during the coming summer, and that every effort should be made to make the plant profitable to the city. As pumps have been in successful operation in the Pittsburg gas fields for the last two years, and have also been introduced at other points where the rock pressure has materially decreased. If gas pumps can be made to do what is claimed for them, they will prove of great value to the City of Toledo; for, with pumps, the entire field of low pressure gas, along and within a reasonable distance of the city main line, would be available to Toledo.

To accomplish what, in the judgment of the trustees, is necessary to do to put the plant in a profitable condition, and utilize the gas from the low pressure fields owned by the city, will require an additional expenditure of $100,000, which sum should be placed at the disposal of the board of trustees.

Much credit is due Mr. R. W. Smith, who built most of the main line, the submerged lines across the Maumee river, and the high pressure lines within the city, and accepted natural gas bonds in compensation for the work (while the validity of the bonds was being tested in the courts). Mr. Smith took up this work and with great energy pushed it to final completion, at a time when it seemed impossible to further prosecute the work, until a favorable decision might be had from the court of last resort.

Changes in the Board of Trustees.

Thomas H. Tracy, Esq., one of the original members of the board appointed by the governor for a term of two years, retired at the end of his term, April 15, 1891, and was succeeded by Mr. J. W. Greene, who was elected at the municipal election in April for a term of five years.

Clarence Brown, Esq., also one of the original members of the board, appointed for a term of four years, resigned December 24, 1891.

The board of trustees desire to acknowledge the faithful and diligent services rendered by Mr. William P. Heston, manager; Mr. George B. Brown, secretary and auditor; Mr. M. O'Herron, superintendent; and all other officers and employes of the department.

The thanks of the board of trustees are due and are hereby respectfully tendered His Honor, Mayor Emmick, the common council, W. H. A. Read, city solicitor, and other officers of the city government, who have kindly aided the trustees during the past year.

For detailed statements of the operations of the department, covered by this report, your attention is respectfully called to the reports of the manager, secretary and auditor and superintendent, which are herewith submitted.

All of which is respectfully submitted.

By order of the board of natural gas trustees. JOHN E. PARSONS, President.

David B. Hill is not sure whether he likes being senator. The fact is he has not been in Washington enough yet to know whether he likes it or not.—New York Tribune.

A PLAIN PRECAUTION.

Either to adopt a plain precaution, one sanctioned by experience and approved by medical men, or to incur the risk of a malady obdurate and destructive in its various forms of intermittent or bilious remittent fever, or dumb ague, which of the two? For every type, for every phase of malaria, Hostetter's Stomach Bitters is a specific. It acts promptly—does its work thoroughly. As a defence against the malarial taint it is most effective. Emigrants to and denizens of regions in the west where miasmatic complaints are periodical visitants, should be mindful of this and use the Bitters as a safeguard. For constipation, biliousness, rheumatism, "la grippe," kidney and bladder troubles the Bitters will be found no less useful than in cases of malaria. Against the injurious effects of exposure, bodily or mental, it is also a valuable protection.

LOOK AT THIS.

Are these not healthy and bright children? Their appearance does not misrepresent them; they are both healthy and bright. They are the son and daughter of Mr. Je P. Wiley, of Dorchester, Mass., and he has an interesting story to tell in regard to them. The story is as follows:

"In 1885 my wife, accompanied by my little boy, at that time 11 months old, was visiting relatives in Scranton, Penna. The little fellow was suffering untold agony cutting his teeth. My wife was told to try Dr. Hand's Teething Lotion. The effect was magical. It did not simply the child, as most remedies of this character do; it simply soothed the pain of the burning and aching gums. I might write a volume, had I the time, praising this remedy, and then not express my feelings or do it justice, it is simply marvellous. After her return to Boston she wanted another bottle, but I found that it was unknown in this city. I corresponded with Dr. Hand, and received in reply a sample of each of his remedies. I used them on both my children, recommended them to all my friends, and have yet to find the person who, after using the remedies, especially Teething Lotion and Colic Cure, that could not praise them. People may say, and have said to me: 'Oh, there must be something in that Teething Lotion that affects a child's brain.' In reply to this, I will say I have two children, a boy and girl, who have been treated with Teething Lotion since time of beginning to end of teething, and I challenge any person to furnish two with more clearer brains. I cheerfully recommend them to parents who love their little ones."

A little book, illustrated, full of notes and suggestion, or sample bottle, will be sent to any one in the land, FREE.

Board of Education—A. E. Wilson.
Assessor—Wm. Gimsen.

Ninth Ward.
Alderman—Fred H. Wolfman.
Councilman—Anthony C. Bay.
Assessor—Albert Cunz.

Labor troubles grow worse in Germany, and there, as in free (?) America, protection runs riot.

The democratic ward tickets are as good as ever were presented to the people for their suffrages. They ought to prove winners.

Who says the war isn't over? At a reunion in Atlanta last week, Gen. Dan Sickles responded to a toast and Gen. Longstreet sang the "Star Spangled Banner."

If the Chicago convention forces tariff reform to the front as the issue of the campaign the nominee of the convention will be elected, and the man who can most surely be elected on such a platform is Grover Cleveland

Hon. L. C. Cole, of Bowling Green, will be a democratic candidate for district delegate to Chicago if the selection is made in the new district to be composed of Fulton, Lucas, Ottawa and Wood. He is a hustler in politics and a democrat in whom there is no guile.

That was a masterly speech on local politics which Mr. Byron Ritchie made to the democratic city convention. Full of facts which ought to go straight home to all the voters of Toledo. If the people desire thorough reform they will elect the democratic city ticket and a democratic council. It is high time a stop were put to the recklessness and the extravagance of our municipal management.

A half truth is as contemptible as a lie. When an organ says the democratic congress appropriates less money for pensions than Commissioner Raum's estimates call for, if it were honest it would add that the appropriation was based upon figures given in Mr. Raum's sworn testimony before the investigating commission. He didn't suppose his first call was to be scrutinized or he would have made the discovery that it was larger than was necessary before he was put on the witness stand.

Our morning contemporary deprecates the earnestness with which Senator Voorhees opposed and now condemns the election of Judge Woods to the supreme bench. "Perhaps," says the Commercial, "the great reason for Mr. Voorhees' opposition is Judge Woods' republicanism." Mr. Voorhees has not failed to make manifest the well-grounded reasons for his opposition to Judge Woods. He has opposed Judge Woods because of his record. If the Commercial wants to assert that such a record is "republicanism" the premises will be cheerfully accepted.

Mr. Hill says "the presidential nomination will not be handed to any man on a silver platter, and the man who seeks the office must work for it." Perhaps this is true, but the statement has a harsh sound and is not at all pleasant. Certainly it looks better when the principal remains in the background and permits his friends to do some of the scrambling. Never before did a man who wanted to be president swing around the circle telling people of his desires at every town at which the railroad train stopped. Mr. Hill is blazing a new path, but few will ever follow it.

If young Emperor Wilhelm lives to reign half the years of his illustrious grandfather he will look upon his present folly as the drooling of irrepressible infancy. The almost imbecile action of the young man may result in revolt that will shake the empire and resolve German unity into petty kingdoms and weak principalities. No other European country is to-day so weak in the ruling power as Germany, though by location, native strength, indomitable pluck and intense loyalty to fatherland, no other country should naturally be so strong. The emperor alone is to blame for the present situation.

The proposed fusion between democrats and alliance men in Nebraska, should it be effected, will give the fusionists political control of the state. Ex-Senator Van Wyck was retired from the United States senate by the cunning and unscrupulous manipulations of corporations whose schemes he had opposed and defeated. The people of Nebraska realize he was sacrificed because he was true to their interests. The people's party will without doubt nominate him for governor. An exponent of the soundest principles of true democracy, his selection by the democratic and people's party for United States senator will naturally follow.

The contested election case of Noyes against Rockwell, of New York, attracted much attention in Washington the past week. Rockwell is the sitting member of congress, and a democrat. His certificate of election was issued by Gov. Hill. Senator Hill is anxious that Rockwell shall retain his seat and has used personal persuasion with each member of the elections committee. The evidence, however, was conclusive to the committee that Noyes, republican contestant, was elected and the committee made report accordingly, recommending the unseating of Rockwell. What a contrast from the Tom Reed way of sandbagging the opposition in the last congress. In quick succession seventeen democrats were ousted to make a safe quorum for the usurper of honest legislative rights and fair treatment.

The St. Louis Republic says: "Tariff reform is growing in popularity among the masses, and honest men, be they manufacturers or editors, are forced to declare in its favor. McKinleyism must go. It is a fraud upon the purchaser and the seller; it is a fraud upon the poor man and the rich; it cripples business, shuts down factories and paralyzes trade." A fairer and more concise exposition of actual conditions was never made. The way to a tariff reform that shall be a permanency in business relations has been opened by the very extravagancies, inconsistencies and inconveniences of the McKinley monstrosity. It was a bitter dose the protected barons of the United States were able to force upon the people of this country through the Fifty-first congress. The evil was so monstrous it has been its own judge and executioner. McKinleyism must go.

The house of representatives takes up the free silver coinage question this week, but there is little evidence that the leaders of the movement appreciate the gravity of the situation. Or, if they do, they seem to care little for consequences. However much the double standard is desirable and necessary, the folly of making free coinage of silver dollars worth no more than seventy cents, intrinsically, and forcing them upon the market with gold worth one hundred cents on the dollar ought to be apparent to the most earnest silver advocate. Considered from a political standpoint only, the Brand democrats, who are earnest partisans, ought to know that success will only follow the united efforts of the democratic party. The democratic candidate this year can not be elected without the vote of New York, and the Empire state will neither vote for a free silver candidate nor sustain a platform that proclaims a seventy-cent dollar the coin of the realm. The sentiment of many states which the democracy expect to carry is against free coinage at this time, and that democrat is a poor politician who thinks there is any real hope of carrying enough western republican states to offset the possible loss of New York, New Jersey and Connecticut. Democratic congressmen are the autocrats of the situation, only in legislation. They can't compel obedience to their decrees. The party is loyal, but is not, and will not be, committed to fiatism.

THE NAVAL REVIEW.

It Will Be One of the Grandest Sights the World Has Ever Seen .

Washington, March 21.—One of the most popular and appropriate features of the coming quadro-centennial celebration in honor of the discovery of America and the achievements of Columbus, the navigator, is the proposed grand review of the navies of the world in Hampton roads and New York harbor.

Assistant Secretary Soley has given a list of the United States vessels expected to take part in the review. This list includes the following: New York, Maine, Puritan, Amphitrite, Miantonomah, Monadnock, Terror, Harbor defense ram, Cruiser No. 6, Chicago, Baltimore, Philadelphia, Newark, San Francisco, Charleston, Cruiser No. 12, Montgomery, Detroit, Cruiser No. 11, Machias, Gunboat No. 6, Practice cruiser, Boston, Atlanta, Yorktown, Concord, Bennington, Petrel, Dolphin, Torpedo boat No. 1, Torpedo boat No. 2.

In addition to these vessels, the assistant secretary gave a list of wooden ships which will also probably be in commission at the time of the review: Lancaster, Yantic, Jamestown, Marion, Thetis, Adams, Alliance, Kearsarge, Monongahela, Mohican, Essex, Portsmouth.

BACK FROM THE FUNERAL.

Sergius, of Russia, is Visiting in Berlin.

Berlin, March 21.—The Grand Duke Sergius, of Russia, governor of Moscow and husband of the Princess Elizabeth, daughter of the late Grand Duke of Hesse, and granddaughter of Queen Victoria, arrived in Berlin at 5 o'clock this evening.

The grand duke and wife are on their way back from the funeral of the Grand Duke Louis.

Prince Henry received them on behalf of the kaiser, and at midnight Sergius and the princess will continue their journey to St. Petersburg.

VISITING HIS FATHER

Youngstown, O., March 21.—Gov. McKinley and wife and Executive Clerk Bowsel are in the city, guests at the residence of the governor's father.

CURRENT COMMENT.

Mr. Harter has gained the public ear. He is talked about. Perhaps it is fortunate for his self-esteem that he cannot hear the conversation.—Chicago Times.

The country, in spite of vehement predictions, was not ruined by free quinine; but what a wreck it would become if the farmers were to get free binding twine.—Louisville Courier-Journal.

While Hill and Cleveland are fighting over the vote of New York some other men from farther west are industriously engaged in corralling the vote of the rest of the United States.—New Orleans New Delta.

Massachusetts now has an anti-free pass law. When a Massachusetts man wants a free pass on the ground of superior intellect, etc., he will make his application outside of his own state.—Louisville Courier-Journal.

Dalzell, of course, thinks he is doing a great thing when airing his eloquence, but nobody is listening. Quay can accomplish more than a dozen Dalzells. Speech is silvern, silence is golden.—Scranton Republican.

In Kansas, too, there are plans for a fusion of the elements opposed to republican misrule. McKinleyism is not a name to conjure with this year in any state of the great west beyond the Mississippi.—Boston Globe.

The suggestion that Jay Gould is about to become a church member will doubtless be a surprise to many, but it is alleged that he will soon join the Presbyterian church, of which his daughter is already a communicant.—Wall Street News.

Senator Hill has declined to take salary for a longer period than he has actually occupied his seat in the senate. The act would smack more of the noble Roman if it were not for a trifling suspicion of political effect.—Oil City Derrick.

One can hardly repress a feeling of admiration for Gen. Alger's high-minded declaration that "I would not spend money to assist me if I knew that it would make me president to-morrow. If a man cannot win by honorable means he should be defeated." At the same time there is a popular impression that the general would not let a matter of a few dollars stand between him and the presidency.—Buffalo Courier.

The Standard Oil trust will not precisely give up the ghost. It will simply take new form. The trust certificates, which represent the value of various properties in the present aggregation, will be surrendered for stock of proportionate value in the combined properties. The old concern was appropriately enough denominated "a trust;" the new organization should be called "a stockade." Nothing is further from the thought of the Standard Oil magnates than any surrender of their power to control the oil market.—Philadelphia Record.

MENTIONED ON THE STREETS.

That suicides are becoming rather too frequent about the city.

That the republicans sighed for the Baber law, but had it not.

That the democrats never had better candidates for ward offices.

That Judge Scribner will be re-elected to the circuit bench without opposition.

That as usual the street railroad companies had a finger in the pie Saturday night.

That John Bolan came up smiling as usual at the head of the Eighth ward delegation.

That Ralph Holbrook knows more than he did about the management of caucuses.

That Street Commissioner Bower finally succeeded in clearing all his opponents off the track.

That Byron Ritchie always rises to the occasion as chairman of a democratic convention.

That civil service rules do not have much effect on the employes of Uncle Sam in Toledo.

That some wholesome suggestions are to be made by the mayor's special gas investigating committee.

That John Daly is somewhat of a sprinter himself when it come to making the race for the council.

That Tom Rooney did very well for the first time in the Fifth, but the old heads were too much for him.

That the republicans will not recover from the scrimmages of Saturday night for some time to come.

That there is much democratic enthusiasm to-day as a result of the happy ending of the primary election.

That as soon as the spring election is over the contest for delegates to Chicago and Minneapolis will begin in earnest.

That Sam Kohn will distance Sprague in the Second for the school board, and Schmitt will fix Schaffer without doubt.

That Phil Hassenzahl is already conspiring to take Tim Leroux's chair as president in the aldermanic board, in the event of election.

That Ashton Coldham was only defeated by one vote when a candidate against Alderman Macomber two years ago in the Third ward.

That Sanford Cook, nominated by the democrats of the Sixth, formerly represented the ward in the council, and was as good a councilman as ever filled the office.

OIL AGAIN.

East Toledo Smells the Crude Once More.

The Startling and Unexpected Freak of a Long Abandoned Gas Well.

The East Side has prospects of another oil boom.

That there is oil lurking about the inner depths of that locality has been demonstrated on several occasions, and Saturday afternoon more evidence of this fact was manifest.

Several years ago the Maumee Rolling mills drilled two wells in the vicinity of the plant, prospecting for gas. Nothing of any consequence was developed and the holes were plugged. A few days ago the management sold the tubing to a Findlay party, and on Saturday afternoon the owner came to take possession of his property.

To loosen up the pipe, a charge of dynamite was lowered and set off.

Immediately following the shot, all present were greatly surprised to see a black stream issue from the mouth of the hole, and shoot 20 feet into the air. The volume continued for 25 minutes, and about 50 barrels of pure crude oil were scattered over the surrounding territory.

The flow gradually subsided, and has been shut in. There is about 40 feet of oil in the pipe yet.

The company will take steps to ascertain the capacity of the well as an oil producer, and if the investigation warrants, the well will be packed and pumped.

THE NEW MANAGEMENT

Of the Weather Bureau Now in Possession.

Observer Hagen Relieved and Ordered to Report At washington —The New Officials Installed

A revolution in the management of the weather bureau at this station is about to take place.

A few days ago Observer Hagen received a telegram from headquarters relieving him from the charge of the station, and ordering him to report to Washington at once. George Lysight also received similar orders.

Major H. C. Bate, inspector of weather bureau, of Nashville, is in temporary charge of the office. With him came Richard O. Lazenby, late of the Buffalo station, and William E. Donaldson, of the Grand Haven, Mich., station, who have both been assigned to duty at this station.

Although nothing official has been given out, Mr. Lazenby will be installed as observer and placed in charge of the office. Mr. Donaldson will also be permanently connected with the office.

ARTICLES FILED.

Columbus, O., March 21.—The following articles of incorporation have been filed in the office of the secretary of state. The Church of Christ, of Celina, O.; the Buckeye Pipe Line company, Lima, amendments, enlarging purpose and increasing capital from $6,000,000 to $10,000,000; the Ohio Oil company, Cleveland, reduction of capital stock from $8,000,000 to $2,000,000; the Buckeye Building and Loan Association Company, Mt. Gilead, increase of capital stock form $100,000 to $500,000; Haley Chapter, No. 136, R. A. M., Napoleon; the Dunham Avenue Christian church, Cleveland.

ABOUT PEOPLE.

Senator Vance's home is in Charlotte, but he visits there so seldom that he says even his dog does not know him.

The German kaiser loves top boots and hates slippers. Boots are all right for a man who does his thinking with his feet.

Amelie Rives is fitting up an artistic flat in New York, where she will gather around her in a "weekly salon" a number of representative writers.

Thomas Ewing Moore, United States consul at Erfurt, Germany, and formerly the consular representative of this country at Montreal, is visiting his mother in New York.

Professor John Cairns, lately principal of the United Presbyterian college at Edinburgh, Scotland, is dead. He was born in 1818 and was a prolific writer on religious and theological topics.

Rev. Dr. Henry Gabriel, of Glens Falls, N. Y., has received the papal bull appointing him Catholic bishop of Ogdensburg. He will remain at the head of St. Joseph's seminary until his consecration.

There is a rumor that Secretary Blaine is getting ready to start for Cuba, where he will stay until the summer is over. He probably expects to get warmed up in that sweltering climate for the still hotter work of the campaign, in which he will see his friend Harrison gasping for breath.

M. de Lesseps, though in comparatively good physical health, has become so enfeebled in mind that he hardly recognizes his oldest friends, and is quite incapable of sustaining a conversation. Although weak, he is able, with the assistance of a servant, to get about his house, but his condition is regarded as extremely alarming.

Ex-Attorney General Garland, who has resided in Washington these three years, since he ceased to form part of Mr. Cleveland's administration, is going back now to Little Rock, Ark., to live, and his old house is being repaired and fitted for his occupancy. He takes occasion to deny a rumor that his motive in returning is to re-enter politics.

RHEUMATISM and NEURALGIA CURED.

If suffering, send this slip from the Bee, with a 2-cent stamp, to W. H. Hill & Co., Detroit, Mich. We will send a bottle of medicine free.

A SPLENDID TICKET.

Placed Before the People by the Democrats

At the City Convention Held This Morning.

Ringing Speech by Byron Ritchie—Louis Steuer for Street Commissioner, John H. Puck for Police Commissioner —The Rest of the Nominees.

The democratic city convention met this morning at Turner hall on St. Clair street. The delegates were jubilant over the satisfaction expressed on all sides at the unity exhibited at Saturday night's primaries, and all were confident that victory awaits the party at the coming contest. This is a reasonable expectation when it is known that the republicans are all torn up over their nominations made at the rump caucuses. A strong pull and a pull all together will bring about the election of the ticket chosen, which at this time in the city's history, is almost a matter of necessity.

It was 10:05 when M. C. Sullivan, chairman of the city central committee, called the meeting to order. He appointed John King, John Daly and Parks Hone a committee to seat the delegates, a step found necessary owning to the limited capacity of the hall.

The Delegates at the Convention.

The following were the delegates from the various wards:

First ward—F. E. Witker, H. Hood, J. W. Russell, C. T. Johnson, H. P. Platt, H. C. Ernsthausen, W. F. Donovan, C. C. Mellerd, J. C. Gribbin, Parks Hone, F. E. Wright, E. Culver, A. Popp, E. D. Scrafford, B. F. Wade, P. Redding, sr., H. Deickman, E. R. Freeman, P. Hubbard, A. Farquharson.

Second ward—John V. Sanfleet, Joseph J. Fournier, Edward Moritz, Frederick Wagenknecht, Charles W. Murphy, Chas. H. Epker, Michael Kirschner, Wm. H. Birkencamp, John M. Klotz, James H. Wylie, James H. Pheatt, Wm. A. Gashe, John O'Connor.

Third ward—Frank Rheinhart, Robert J. Wallace, W. W. Jones, Patrick A. Allen, James Foley ,Fred Kountz, George B. Boone, Charles A. Smith, George W. Vrooman, Cyrus Kirkley, Patrick M. Stack, Wm. Cannon, Patrick Keegan, Michael Langdan, Benjamin F. Sheehan, Charles Bantz.

Fourth ward—Henry Hoerline, John McGettigan, Jos. Staub, Dan Doner, John Mackin, Joseph Steinman, Fred Stark, Jas. Yeager, John Sweeney ,John Brown, Michael Corcoran, John O'Dwyer, Henry Schlagel, Frank Ritter, Peter Mattimore, Roger Sheehy, George Hopkins, John Huberick.

Fifth ward—G. M. Doner, R. Brand, O. A. Browning, H. Early, J. D. Dunning, S. J. Daily, J. Hartman, J. E. Sullivan, G. Helwig, R. Ford, G. Elben, T. E. Rooney, J. Schlagheck, J. Stanton, A. W. Sheahan, P. F. Farrell, G. Myer, A. D. Orcutt, J. M. Gorman, W. H. Hebler, J. Jensen.

Sixth ward—L. A. Metzger, Hugh Carroll, August Munding, Wm. Brunt, Jacob J. Grueshaber, Michael Donahue, Anthony Barror, Oscar Turner, John Haley, George Thomas, Wm. J. Gill, Robert Gardner, Metz Monnis, Martin McGrath, J. Colburn, John Stark, W. H. Hartford, Louis Volk, Wm. Rogers, Eugene Mouter.

Seventh ward—Phillip O'Reilley, Louis A. Young, Jas. A. Dailey, Peter Miller, Louis Rieger, Geo. C. Meissner, Peter Ulgener, John Connors, Frank McManus, Thomas Dawson, Thomas Foley, Thos. Duffy, Jacob Harbauer, Fred Drover, Jno. Murphy, Paul Fournier, Clement V. Wagner, Geo. Jackson, Michael Sullivan, Chas. Quinlan, Charles P. Brigham, Fred Puck, Arnold J. J. Machen, Thomas Finucan, Charles I. Scott, Harvey Scribner, W. J. Colburn, Louis G. Richardson.

Eighth ward—John Bolan, James Whalen, Thomas McDonough, Henry McCrew, John O'Neil, Joseph Gilday, Barney Mattimore, Patrick Hennahan, James McKinney, Gus Millwright, M. J. Garvey, J. Holland, Thomas T. White, Henry Meyers, Henry Huffman, Chas. Backer, John Mattimore, Chas. Furey, Leo. Balser, Frank Jacobi, John Kamms.

Ninth ward—James McGuire, M. J. Dooly, John King, M. F. Richlin, D. Foy, John Rutherford, D. J. O'Hara, C. H. Karnfuhr, J. H. Botefuhr, H. Arnsman, August Scherff, Peter Lynch, John Ford, Lawrence Burkhardt.

Mr. Sullivan then announced the object of the convention and named the offices to be filled. He submitted Byron F. Ritchie for temporary chairman.

Mr. Ritchie in a rattling speech gave the keynote to the campaign. Thanking the convention for the honor paid him. He continued:

Mr. Chairman and Delegates: I wish to thank the committee for the unsolicited honor of being chosen to preside, temporarily, over the deliberations of this convention. I desire to congratulate the committee upon the excellent method chosen for the selection of our candidates and delegates. This body of respectable and representative democrats, speaks more favorably and more eloquently for, than I possibly can, of the wisdom of the so-called Baber law system of primaries. It is a system which is fair to all and unjust to none. It affords to every democrat an opportunity, freely and fearlessly, to express his own choice of candidates, and his own desires for delegates. It saves our party from factional fights. It takes from the caucus all chicanery and fraud. It cuts all political wires, and breaks all political slates. It robs the ward politician of his influence and power. It produces harmony and good will. It prevents double delegations, because it allows the majority to rule. In the future, let this be our method, always, for it sends to our conventions, as delegates, earnest men, whose sole purpose is the advancement of the party's welfare, and the enhancement of the public good.

Democrats, we have made excellent nominations in all the wards of the city. Our candidates possess the people's confidence. Their names demand respect, and will command support.

Delegates, do your duty here to-day. Act with care. Reason together. Proceed with prudence. For city candidates, give us men who are strong, with records that are clean, and we must win. The time is ripe for a municipal change. Toledo's welfare demands it, and Toledo's citizens will allow it. The republican party has had control of our municipal affairs. It has been a false steward. Our municipal credit is in danger of dishonor. Our bonds, which were once considered excellent investments in every financial market in the land, are, to-day, unsought, and thousands of them unsold. There has been profligacy and extravagance; there has been gross inattention to duty.

For instance, we have a republican mayor who is all things to all men. He is as unfitted for the position, as is a last year's birdsnest for an Australian ballot box. Instead of doing his duty, instead of sounding the signal of danger; instead of crying "Halt;" instead of undertaking to steer our finances away from the shoals and breakers of ruin and disaster, he has been utterly heedless of duty, dividing his time between parading his form upon our public streets, and playing shadow to Ohio's governor, in search of another office with a larger salary attached.

Our republican street commissioner has been derelict. Our streets are in a deplorable condition. Our pavements are "out of sight," and so, also, most of the time, is he. No matter where. Our republican J. P.'s instead of dispensing justice, dispense with justice. In Toledo, J. P. no longer signifies "Justice of the Peace," it means "judgment for the plaintiff." There has been misfeasance and malfeasance in office. Have our people so soon forgotten how embezzlement and robbery walked hand in hand in one of our republican city offices; how a large amount of public money was filched for private gain? For this very office, to-day, a dozen or more republicans are striving, some of them aided by the most unholy and unAmerican alliance that ever existed above the earth's broad rim, unmindful of the fact that the salary has been reduced.

Fellow democrats, in the face and eyes of this record, which is undeniable and undisputable, the republican party asks an indorsement. It must fail. The people demand men of judgment; the times demand economy, frugality, integrity, honesty, retrenchment and reform.

Choose candidates to-day who possess these qualifications in such an eminent degree as to challenge the admiration and support of all voters who have our city's interests at heart.

Democrats, one word more, and I have done. This is merely the preliminary skirmish to that grand political contest which is to ensue this fall. Let us be united; let us banish all selfish desires; let the only end we aim at be our party's and our country's good; let us close up the ranks; let us be eager for the fray. The republican party claims the credit of having lifted the black man from bondage. Let it be our proud boast, that through the successful instrumentality of tariff reform, we will have lifted the burdens of the people, removed taxation from the necessities of life, and at the same time, have stricken the shackles from millions of our countrymen, both black and white.

In that contest shines the star of hope. In that contest, above the democratic hosts will rise the brilliant sun of victory. In that contest there must be no silver side track. The broad gauge of tariff reform is the only through route, and Grover Cleveland is the only proper engineer. He sits higher than ever before in the affections of his countrymen. He is the most eminent democrat alive to-day. He is firm in his convictions and fearless in their utterance.

His integrity of purpose, his purity of motive and his political record is a democratic platform of itself.

Mr. Parks Hone was elected secretary and the democratic representative of the press appointed assistant secretary.

Mr. Harvey Platt moved that the usual committee on credentials be dispensed with, and that the chairman of each delegation announce the delegation.

On the motion of F. E. Wright the following committee on rules and regulations, permanent organization, credentials and order of business was appointed:

H. P. Platt, First ward; John V. Sanfleet, Second; James Foley, Third; George Hopkins, Fourth; Geo. M. Doner, Fifth; M. Donahue Sixth; C. B. Waggoner, Seventh; John O'Neil, Eighth; D. J. O'Hara, Ninth.

The committee after being absent five minutes reported as follows, through its chairman, Mr. O'Hara:

First That the temporary organization be made the permanent one.

Second That the rules usually governing all legislative assemblies govern.

Third. The central committee be named by the delegations, the name to be announced by the chairman of each delegation.

Fourth. The order of business the same as that in the call for the convention.

The report was adopted.

The following is the central committee as announced by the various chairmen:

F. E. Culver, First ward; J. V. Sanfleet, Second; James Foley, Third; Wm. Bretsch, Fourth; Patk. Fitzpatrick, Fifth; W. H. Hartford, Sixth; M. C. Sullivan, Seventh; Michael Horan, Eighth; John King, Ninth.

Chairman Ritchie suggested that the committee get together and organize immediately after the convention adjourned.

Nominating the Ticket.

Parks Hone in a strong speech placed in nomination for street commissioner Mr. Louis Steuer, of the Fourth. He said it was an office of the most importance, and one that recently had been much neglected.

On the motion of M. C. Sullivan the rules were suspended and Mr. Steur was nominated by acclamation.

Mr. Steur was called for. He made a brief but happy speech, in which he promised, if elected, to do his duty honestly and faithfully.

For police commissioner, M. C. Sullivan named John H. Puck, and on the motion of Mr. John Bolan Mr. Puck was nominated by acclamation.

For water works trustee the name of Harvey P. Platt was mentioned, but Mr. Platt positively declined.

Homer Hood then placed the name of Clarence Armstrong in nomination. Mr. Armstrong was nominated by acclamation.

For cemetery trustee the name of Geo. B. Boone was presented, but Mr. Boone declined. On motion Mr. William Beatty was nominated by acclamation.

For gas trustee, short term, Mr. Bolan nominated Chas. Voute, and J. J. Gorman nominated T. C. Lauer.

The name of Mr. Voute was withdrawn and Mr. Lauer was nominated by acclamation.

Jim Staunton placed in nomination for gas trustee, long term, O. A. Browning; Mr. Bolan nominated Chas. H. Voute, P. A. Allen nominated John Schultz.

Mr. Scribner, in a neat speech, seconded the nomination of Mr. Voute.

F. E. Wright placed in nomination the name of Mr. Homer Hood.

Dr. W. W. Jones named Dr. S. F. Forbes.

The first ballot resulted as follows:

Voute	41
Browning	46 1-2
Hood	17
Schultz	62
Forbes	91-2

Total number cast, 176; necessary for a choice, 89. There being no choice, a second ballot was taken, and the result was as follows:

Voute	7
Browning	110
Hood	24
Schultz	32
Forbes	3

Mr. Browning's nomination was made unanimous. Upon being called on Mr. Browning thanked the convention for the evidence of confidence and promised faithful service if elected.

Curtis T. Johnson, of the First ward, nominated for police clerk Geo. W. Leibius. He said a thorough examination of the police court books were necessary.

C. W. Murphy, in the name of the Second ward, seconded the nomination of Mr. Leibius in a good speech.

Mr F. E. Wright moved that the nomination of Mr. Leibius be made unanimous, and it was done with a shout.

Mr. Leibius thanked the convention. He said he was better at a song than at a speech.

Mr. Harvey Scribner nominated for justice of the peace Chas. I. Scott.

Mr. John Huberich nominated Jacob Bailleaux.

M. C. Sullivan nominated James H. Spain.

Thos. Rooney and J. R. Lynn were also nominated.

W. J. Gill moved that the three candidates receiving the highest vote be considered the nominees.

Mr. Harvey Platt objected to this mode of procedure.

On a vote being taken the chairman announced that the motion was lost.

On motion of M. C. Sullivan it was finally decided to vote for three at a time.

The first ballot resulted:

Spain	144
Lynn	15
Scott	138
Rooney	176
Baillieux	52 1-2

Messrs. Rooney, Spain and Scott were declared nominated.

The following were placed in nomination for constable: John Kane, Fred Wenzel, Dick Jackson, Henry Luccin.

The ballot resulted:

Luccin	2
Wenzel	52 1-2
Kani	121 1-2
Jackson	

Before adjourning Mr. Culver, of the First ward, withdrew as central committeeman and Mr. C. T. Johnson was substituted.

The convention then adjourned.

The central committee met on the adjournment and selected Mr. M. C. Sullivan as chairman and C. T. Johnson secretary. The committee will hold another meeting at 5 o'clock this afternoon at Mr. Johnson's office.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

THE FIRST DAY OF SPRING—MARCH 21.

The robin he sat on the branch of a tree,
And he was as cold as a poor bird could be;
And he said, as he tucked his red head 'neath his wing,
"'Tis a mighty tough day for the first day of spring.

The coal dealer smiled as he looked on the snow,
And he turned to the stove with his face all aglow;
And he said to himself "King Coal is still king,
'Tis a mighty fine day for the first day of spring."

The motorman shivered and shook at his post,
While passengers threatened to give up the ghost;
And breathed on their fingers to keep out the sting
That wouldn't depart on the first day of spring.

THE SPRING POET.

Notice to Surveyors.

Toledo, Ohio, March 19, 1892.

To the Auditor of Lucas County, Ohio:

Dear Sir—In accordance with a resolution of the county commissioners dated February 24th, 1891, the undersigned took observations to ascertain the declination of the magnetic meridian and respectfully reports the following:

Six readings were taken from each of the verniers ("A" and "B") at the north and south ends of the established meridian line, the average of which readings shows a declination of the needle from the true meridian of 30 minutes, 30 seconds, west of north.

Instrument used—a Beckman transit, number 914.

I hereby certify that the foregoing is a correct report of observations of the declination of the magnetic from the true meridian.

Respectfully submitted.

H. W. WILHELM,
Lucas County Surveyor.

Chas. H. Jones, County Auditor.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office.

Dr. C. L. DREESE, Goshen, Ind., writes:

Petroleum as a Medicine

"In the treatment of the mucous membranes, especially of the nose, throat, and lungs, I find Angier's Petroleum Emulsion a sovereign remedy. It has given me finer results than any Emulsion of Cod Liver Oil I ever used."

Angier's Petroleum Emulsion WITH HYPOPHOSPHITES

Contains all the properties of the crude oil; yet is so highly refined as to be almost tasteless. Don't confound it with Cod Liver Oil preparations. It is entirely unlike them. In

Consumption, Bronchitis,

Asthma, Sore Throat, Pneumonia, La Grippe, and their serious after effects, it is positively without a peer. It builds up the system, puts flesh on the wasted frame, and assists nature in effecting a cure.

WHAT DOES IT MATTER?

Wealth and glory, place and power,
What are they worth to me or you?
For the lease of life runs out in an hour,
And death stands ready to claim his due;
Sounding honors or heaps of gold,
What are they all when all is told?

A pain or a pleasure, a smile or a tear—
What does it matter what we claim?
For we step from the cradle into the bier,
And a careless world goes on the same.
Hours of gladness or hours of sorrow,
What does it matter to us to-morrow?

Truth of love or vow of friend—
Tender caresses or cruel sneers—
What do they matter to us in the end?
For the brief day dies and the long night nears;
Passionate kisses or tears of gall,
The grave will open and cover them all.

Homeless vagrant, or honored guest,
Poor and humble, or rich and great—
All are racked with the world's unrest,
All must meet with the common fate.
Life from childhood till we are old,
What is all when all is told?

—Ella Wheeler Wilcox.

BEESWAX.

The free inhabitants of the air seem to have their troubles. Parsley is poisonous to many kinds of birds.

A $2,000 scholarship has been established at Mount Holyoke college by Mrs. Mary Hall, of New York.

A Sunderland firm, Messrs. Glaholm & Robson, have completed a colliery wire rope six miles long and 24 tons weight.

The street cars in Leavenworth, Ks., are to be run by compressed air. The citizens have raised the money to raise the wind.

The women of Poland will wear mourning during 1892 to commemorate the centenary of the loss of Poland's independence as a nation.

It is reported that the output of the New Caledonia nickel mines is to be absorbed by the French government for the manufacture of Lebel cartridge cases.

A Chattanooga woman has horsewhipped her family physician because he failed to cure one of her sick children. She didn't even wat until he presented his bill.

Not satisfied with running down Tennyson's laterday poetry envious critics are now making fun of his spelling. They say the old gentleman is quite weak on that point.

Ship Tam O'Shanter, 1,522 tons, of Portland, Me., which arrived at Hampton Roads on February 18, made the run from Havre in 17 days, equal to steamer time.

The United Brotherhood of Carpenters throughout the country will, on May 1, demand that eight hours constitute a day's work. They will strike where this concession is not made.

Thirty thousand dollars' worth of liquors were dispensed, "for medical and mechanical purposes only," by the Biddeford, Me., city agency during the past year, at a net profit of $2,667.

A French company is building a street-car line in Tashkend, the capital of Russian Turkestan, where not many years ago any white man who had visited the place would have lost his head.

N. C. Creede, who recently roamed the mountains of Colorado a poor and friendless prospector, is said to have been offered $1,000,000 by D. H. Moffat for his interest in the Amethyst mine. The offer was refused.

There is a rosebush at Hildersheim, in Hanover, that was planted more than 1,000 years ago by Charlemagne. The bush is 26 feet high and covers 32 feet of wall space. The stem is 2 inches in diameter.

Miss Rhoda Broughton has organized a successful movement in Philadelphia for a "Home of Rest for Horses." The scheme is in practical operation, and insures greater kindness in the treatment of the class of animals for which it is designed.

The excitement following the discovery of iron ore on the Mesaba range, north of Duluth, has been tremendous, and on one day alone, March 1, there were articles of incorporation filed for 11 mining companies with a total capitalization of $21,500,000.

The Society of the Army of the Tennessee hopes, with the assistance of the New York Union league, to raise $150,000 for the proposed monument to General Sherman. Included in this sum is an anticipated congressional appropriation of $50,000 or more.

The tea trade of China and Japan seems to be changing in favor of the latter. The trade of Japan in this article is increasing at the rate of 3,500,000 pounds per year, while the Japan tea trade is diminishing. Japan's best customers for tea are the United States and Canada.

A miniature photographic camera attached to the barrel of a gun is the invention of Mr. Lechner, of Vienna. By an automatic shutter, working in union with the trigger of the gun, the sportsman is able to obtain a perfect photograph of the bird or animal immediately before the shot or bullet has reached it.

The medical education of the native young women of India is extending with great rapidity under the encouragement of the Countess of Dufferin association. In Bombay alone 62 native girls have been admitted to medical college within the last six years, and several of these are now qualified practitioners.

A new viaduct over the river Lea, in Bolivia, for the Antofogasta railroad, is described as the highest viaduct in the world. It is 9,833 feet above the sea level and the height of the viaduct above the river is 4,008 feet. It is 10,497 feet long, the highest pillar is 3,736 feet and the weight of the structure is 9,115 tons.

Paris is agitating the organization of a woman's club whose object shall be social intercourse, afternoon tea, and gossip. Only the wives of members of the men's clubs will be admitted, and no male intruder will be admitted to the sacred precincts of the "Cercle des Femmes du Monde," as the new club will be named.

The annual prize for 1892—$100, with a gold medal—offered by the United States Naval institute for the best essay on any subject pertaining to the naval profession, has been secured by William Laird Clowes, of Surbiton Hill, Surrey, England, who submitted an essay on "Torpedo Boats, Their Organization and Conduct."

The last census shows 3,715 towns in the United States with a population of more than 1,000. There are 7 cities with more than 400,000 inhabitants; 21 between 100,000 and 400,000; 30 between 50,000 and 100,000; 66 over 20,000 and under 50,000; 92 over 15,000 and under 25,000, and 138 over 10,000 and under 15,000.

Dutch military cycling volunteers have to pass a real examination before they are accepted for the maneuvers, but when passed they get 5 florins a day, first-class fair traveling, and are lodged as officers at the expense of the state. They have to be able to ride 62 miles in seven hours and 31 miles in two hours and a half.

The largest dividing belt in the world has just been manufactured in Paris. It is 120 feet long, seven feet wide and nearly an inch thick, the weight being a ton and a half, and is to run over a fly wheel 22 1-2 feet in diameter. Its speed under ordinary conditions will be 67 feet per second, and it will transmit 1,000 horse-power.

It is stated that there has been discovered in the forests of India a strange plant, which possesses, to a very high degree, astonishing magnetic power. The hand which breaks a leaf from it immediately receives a shock equal to that which is produced by the conductor of an indication coil. The energy of this singular influence varies with the hour of the day.

Experiments in instantaneous photography have proved to us that the shots not only spread out, comet-like, as they fly, but they string out one behind the other to a much greater distance than they spread. Thus, with a cylinder gun, when the first shot of a charge reaches a target that is 40 yards away, the last shot is lagging along 10 yards behind. Even with the chokebore gun some of the shot will lag behind 8 yards in 40.

A remarkable piece of engineering work is the tunnel of the Paruna Oroya railroad through the Andean mountain peak at Galera, Peru. It is at an elevation of 600 feet above the perpetual-snow line, and is to be 3,847 feet long. It is the highest railroad tunnel in the world and is located in the highest inhabited region in the world. The town of Galera is 15,635 feet above the sea level, nearly 1,500 feet higher than the hotel on the top of Pike's peak.

WARD NOMINATIONS.

The Democrats Put Up Strong Tickets.

The Caucuses Saturday Night Brings Out the Best Element of the Democratic Party—The Tickets.

The democratic caucuses Saturday night were held under the Baber law and were eminently satisfactory, much more so than were those held by the republicans under the barbarous open caucus system. The democrats had two tickets in almost every ward, but there was no dissension, only a good-natured battle of the ballots. Steve Hughes and John Daly were rival candidates for councilman in the Fourth. The contest was close. Before the voting opened they mutually agreed to abide by the decision of the vote, and the vanquished was to turn in and help the victor to be elected. John Daly won, and Steve will keep his promise.

In the Second and Seventh the republicans got into a row, and much bad blood was shown.

The democrats have made splendid nominations in every ward. Coldham and Lamb in the Third are a great team and will be hard to beat. In the Fifth the republicans shelved such old war horses as John W. Enright and James Coyle. They were not even elected delegates.

Following are the ward tickets as nominated:

First Ward.

Democratic.—Alderman, Frederick Schulty; councilman, Rudolph P. Mathias; assessor, John W. Russell; ward committeeman, John R. Booth.

Republican.—Alderman, Phillip Hassenzahl; councilman, Daniel W. Miller; assessor, J. J. Keller; committeeman, R. M. Parke.

Second Ward.

Democratic—Councilman, Theodore Schmitt; board of education, Samuel Kohn; assessor, James Conlisk; committeeman, D. C. Donovan.

Republican.—Councilman, Leopold Schaffer; board of education, H. C. Sprague; assessor, J. R. Brinker; committeeman, S. W. Boles.

Third Ward.

Democratic.—Alderman, Ashton H. Coldham; councilman, Sylvester Lamb; assessor, Thomas O'Neil, Sr.; committeeman, Michael Curran.

Republican.—Alderman, Oliver Hall, Jr.; councilman, H. R. Lee; assessor, C. P. Barnum; committeeman, R. H. Bell.

Fourth Ward.

Democratic.—Councilman, John Daly; board of education, C. Zerwas; assessor, Gottlieb Sherlitz; committeeman, Jas. Steinman.

Republican.—Councilman, J. G. Morgenthaler; board of education, Julius Strobecker; assessor, John Schlather; committeeman, Henry Stautzenbach.

Fifth Ward.

Democratic.—Alderman, Michael Graham; councilman, Frank Coleman; assessor, Frank Tillman; committeeman, J. E. Sullivan.

Republican.—Alderman, Edwin Morgan; councilman, Theabold Schunk; assessor, Ernest Schupan; committeeman, Orin Harding.

Sixth Ward.

Democratic.—Councilman, S. W. Cook; board of education, Harrison Hathaway; assessor, Eugene Moulter; committeemen, W. H. Hartford, Henry G. Rogers.

Republican.—Councilman, Frank Hake; board of education, Dr. E. E. Scott; assessor, Emery Ward; committeeman, L. P. Harris.

Seventh Ward.

Democratic.—Alderman, W. R. Hodge; councilman, John A. Felker; assessor, Anton Szyperski; committeeman, Geo. Jackson.

Republican—Councilman, W. J. Albrecht; alderman, George U. Roulet; assessor, Louis Wacker; committeeman, W. J. Albrecht.

Eighth Ward.

Democratic.—Councilman, L. W. Walker; assessor, Wm. Gonsen; committeeman, John O'Niel; board of education, A. E. Wilson.

Republican.—Councilman, H. E. Benson; board of education, George Schuch; assessor, Charles Wegner; committeeman, W. H. Tayto.

Ninth Ward.

Democratic.—Alderman, F. H. Wolffman; councilman, A. C. Bay; assessor, Albert Kuntz; committeeman, J. McGuire.

Republican.—Alderman, Gus Hein; councilman, B. O. Manchester; assessor, Ira Snell; committeeman, H. Baumbach.

Notes.

The Third is all right.

Where, oh, where has Caldwell gone?

John Enright was not in it in the Fifth.

Jake Weir has no use for Art. Luce. See?

Mike Graham will have a walk-away in the Fifth.

Canton avenue was out en masse in the Second.

Bob Parke didn't have it all his own way, did he?

Holbrook got badly snowed under in the Seventh.

John Kountz got there, but it was a tight squeeze.

Lon Mitchem thought he had a sure cinch on it in the Third.

The republicans had a monkey and parrot time of it in the First.

Theo. Schmitt will carry the Second hands down. See if he don't.

The decent republicans of the Seventh are ashamed of Saturday night's work.

John Daly is as good as elected in the Fourth. There are no bolters this trip.

Charley Hanner got knocked out in great style in the Third. Charley ain't in it.

For the first time in eight years Joe Kelp will not be a delegate to the republican convention. The apes are after Joseph.

No such disgraceful scenes have ever been seen at a democratic ward meeting as were witnessed at some of the republican caucuses Saturday night.

Billy Meyers was also slaughtered in the house of his friends. Heretofore Billy has been a power in the Seventh. He says he don't care.

Col. Corlett asked "Bones" Robison who had been nominated for councilman in the Second. "Oh," said Bones, "that crazy old loon that keeps the saloon near the market on Cherry."

John W. Enright is hot. After being defeated for delegate in the Fifth he said: "I have carried this ward three times when it was 300 democratic. That is more than any of you who have conspired to-night to defeat me can say."

It is not the extremes of heat and cold so much as the sudden changes of temperature that cause certain climates to be unhealthful. When, however, the system is invigorated with Ayer's Sarsaparilla, these changes are rarely attended with injurious results.

LIVELY COCKING MAIN

Between West Toledo and Cherry Street Birds.

West Toledo Defeated in Three Out of Five—The Cherry Street Champion Dies.

There was a lively cocking main Saturday night, in a barn at Auburndale, between West Toledo and Cherry street birds.

For a long time a game little red rooster belonging to the Cherry street crowd has done up everything in the line of fighting cocks that have been placed before him.

Last Thursday night a main was arranged in which the little red bird was entered. The same parties were interested as were in Saturday night's affair. Somehow or other on Thursday the red bird was killed—just how nobody knows. The owners said it was poisoned. At any rate a quarrel ensued that broke up the main.

Then Saturday night's main was arranged and both sides met with blood in their eyes. The affair was kept very quiet as interference from the police was feared. Some 35 or 40 devotees of the sport were gathered.

There were five battles, each one for $10 a side. The Cherry street birds came out victorious, winning three out of the five after some pretty tall fighting. It was one of the liveliest cocking mains that has been held in this vicinity for a long time.

Small, pleasant, a favorite with the ladies. W. H. HOOKER & CO., 46 West Broadway, N. Y.

AND HE'S RIGHT, TOO.

Manager Brady in a recent conversation gave vent to his indignation at what he terms "the neck" of the fly-by-night theatrical snaps, which try to secure time at his house, and he shook his head as he said, "no more for me, I'm tired; I'll know they're right or they don't get in; this town is good enough for the best only." He certainly has a fine list of attractions booked, some above the average; he feels highly elated at securing the great New York success, "She Couldn't Marry Three," which will appear here for one night during the next few weeks.

BAD WRECK.

Greensburg, Pa., March 21.—A westbound freight on the Pennsylvania railroad was wrecked near here and a few minutes later the wreck was run into by an eastbound freight.

Three hundred hogs were killed and about one hundred more injured so badly that they will all have to be killed. The loss will be heavy. An unknown Italian was run over and killed by the east-bound train just previous to the wreck.

CHURCH BURNED.

Tiffin, March 21.—(Special)—The unfinished Baptist church was set on fire by an overheated natural gas furnace early this morning and damaged to the extent of $500; insured.

WAKE UP.

If you wake up in the morning with a bitter or bad taste in your mouth, Languor, Dull Headache, Despondency, Constipation, take Simmons Liver Regulator. It corrects the bilious stomach, sweetens the breath and cleanses the furred tongue. Children as well as adults sometimes eat something that does not digest well, producing Sour Stomach, Heartburn, Restlessness, or Sleeplessness—a good dose of Regulator will give relief. So perfectly harmless is this remedy that it can be taken by the youngest infant or the most delicate person without injury, no matter what the condition of the system may be. It can do no harm if it does no good, but its reputation for 40 years proves it never fails in doing good.

West Bay City, March 7th, 1892.

Albion Milling Co., Albion, Michigan.

Leucorrhœa or Whites. A private home secured for ladies pending and during confinement. Ladies in need call or write. Consultation free and private. Hours 10 to 12 a. m., 2 to 4 and

HOW HE ESCAPED.

A Man Who Preferred Death Rather Than Suffering—What He Did.

The man who shot and killed himself at the corner of Travers street and Webster avenue on Thursday, was identified as Joseph Scheppler, a saddler, of No. 230 Mott street. He had been suffering from rheumatism for twelve years, and on Wednesday night he told his sister, Mrs. Rathberger, of No. 211 Chrystie street, that he could not stand the pain any longer. The sum of $22.95 was found in his pockets. The sister will bury the body.—New York Sun.

Sad; but how many men and women do the same sad things! This man had a special reason for killing himself. He could not longer stand the pain from rheumatism which he was enduring.

How foolish!

Yes; but have you ever suffered as he did? If not, do not condemn him yet. Agony is awful. Should it be endured? No; it should be cured, or, rather, prevented. That is all very well, you say, but not an easy thing to do. Isn't it?

Listen.

Prof. Phelps, of Dartmouth, knew this fact, and what did he do? He made a new discovery. Was it an ordinary discovery? Not in the least. It was one of the greatest of the present century. It was scientific and powerful. It would cure rheumatism in the worst cases and prevent it in every case. It has become marvelously popular. It is used almost universally to-day. In a word, it is Paine's Celery Compound.

Pinched and pained from change of air, weak and worn by disease, with joints springing in agony from their sockets, many men and women feel that death would be a glad relief. It is weakness to think so, but it is impossible to continue enduring the agony. There is no need however, to die in order to stop it. Instead of killing oneself, one should kill the pain, and we have pointed out above how this can be done.

THE HERMIT LITZ.

Additional Facts About His Life.

He Has Not Washed In An Age and Puts In His Time Reading the Bible.

The story in the Bee of the life and eccentricities of Adolph Litz, the Oregon township hermit, stirred up recollections of the old man in the memory of the older citizens. He has been a character about the city for years, but nothing had ever been made public of his past life and queer fancies until yesterday.

Litz came to this country in 1842, and located in Oregon township at the age of 25 years.

With ample means at his command he established an immense stock farm and prospered. For ten years he managed his farm and led the life of an ordinary citizen. He was of a retiring disposition, never mingled with his neighbors in social gatherings, and seemed content in the solitary life he led.

He always had many queer ideas, and was determined and immovable in his views. He was a great lover of live stock. He had a perfect horror of butchers, and was never known to sell a pound for the slaughter pen.

His stock was the finest in the country around and always sought after by butchers, who would have to buy the stock through others if they ever killed any of it.

The old man is well educated and of a literary turn of mind. As his peculiarities began to manifest themselves, his inclinations in this direction became more fixed, and he devoted a great part of his time to reading, political economy being the field of his researches and study.

True to his nature, he pursued this inclination determined and inflexible, to the neglect and detriment of his farm and business.

During the excitement of the strife for the presidency between James Buchanan and John C. Fremont in 1856, Litz existed upon the political issues of the day, and was a red hot champion of John C. Fremont.

It was during this heated campaign that his mania became manifest, when he declared that if Fremont was defeated he would never shave his face, cut his hair or wash his body.

Fremont was defeated, and the Bee announced how well the man has kept his strange resolution.

At the conclusion of this campaign, Litz's freaks of mind became more pronounced. He lost all interest in his farm and stock, and the property soon depreciated in value. He made no effort to make a living on the farm and soon became deeply involved in debt.

Matters went on and a foreclosure to satisfy obligations became imminent.

At this time two maiden sisters at his home in Dantzig, Prussia, came to his aid.

Since that time a portion of the farm has been sold to pay back the money borrowed of these relatives.

His mania broke out anew later and he began to buy junk, anything, no matter what or how useless, the old man would buy, simply because he could get it cheap.

There seemed to be no method in his madness, for he never sold a cents worth of the plunder, and it is piled up in heaps about the old house in Oregon township to-day.

As time went on new freaks in his nature became apparent, but the old ideas were as firm as ever and he never wavered from his resolution.

He lost all desire for home comfort or cleanliness, and occupied his time reading, abandoning politics for the Bible. He would allow no one to clean up the house, and thus he has lived in filth and squalor for years.

A HOUSEHOLD REMEDY.

Allcock's Porous Plasters are the only reliable plasters ever produced. Fragrant, clean, inexpensive, and never failing; they fully meet all the requirements of a household remedy, and should always be kept on hand. For the relief and cure of weak back, weak muscles, lameness, stiff or enlarged joints, pains in the chest, small of the back and around the hips, strains, stitches, and all local pains, Allcock's Porous Plasters are unequalled.

Beware of imitations, and do not be deceived by misrepresentation. Ask for Allcock's, and let no solicitation or explanation induce you to accept a substitute.

Christian Patrick, a prominent citizen of Kingston, was found dead on the road near Circleville.

Sydney S. Jackson, said to be the oldest horticulturist in the state, died at his home near Cincinnati.

C. E. Van, traveling salesman for Glidden & Joy, of Cleveland, was stricken with paralysis at Mansfield.

"SHE COULDN'T MARRY THREE"

One of the greatest successes on the road will play an engagement here shortly. It is one of the most colossal theatrical enterprises ever sent from New York. During the past summer over twenty men, scene painters, machinists, upholsterers, carpenters, etc., have been constantly at work building the most stupendous scenery and effects. It can be best appreciated from the fact that not one piece of the oeal scenery is used in the production.

The stage is stripped bare on the company's arrival in town, as every piece of scenery for the entire play is special, and from the accounts which precede the company, some of the scenic effects are simply wonderful.

STORMS IN THE WEST.

Cold Weather and Heavy Snow Reported.

Kansas City, Mo., March 21.—The second heavy snow storm of the month struck this city early yesterday morning and the mercury went down to 10 below freezing point.

Three inches of snow fell between 6 a. m. and 7 p. m., when the storm had practically subsided. Incoming trains from the west passed through the fierce storm, which extended fully two hundred miles toward the Colorado line, and which is believed to have done great damage to crops and to have caused considerable loss to stockmen.

WORLD'S FAIR CLUB.

Novel Plan to Enable Working Men to Go to Chicago

During the Exposition Next Year—Organization Formed in Toledo Saturday Night.

Saturday evening there was organized in this city a society that will be known as the World's Fair club. The object of the society is to enable as many workingmen as possible to visit the World's Fair at Chicago at a cost compatible with their means.

Mr. Hugh O'Reilly presided, and Mr. William Tusch was elected secretary.

Mr. O'Reilly in calling the meeting to order stated briefly the object, and submitted the preamble of a proposed club herewith given, and said the average workingman, who would find it hard to get together $15 or $20, could, under the plan proposed, secure the necessary collateral to pay the limited expenses of a large party, say 100 or 200.

The following was presented and approved:

Toledo, O., April 1, 1892.

We, the undersigned members of the World's Fair club, hereby agree to pay into the fund 25 cents a week or more, until May 1, 1893, the proceeds to be used for the purpose of visiting the world's fair at Chicago in 1893. Each member to draw out an amount proportionate to the sum paid in by him, and no one to withdraw without the consent of the majority of the members.

When this agreement has been entered into in good faith by at least 20 members, a treasurer shall be elected, who shall receipt for all moneys paid to him by members.

An assessment of 10 cents per member shall be made, to be paid to the treasurer with first payment, and all necessary books and receipts to be furnished by him for that amount, he to give a bond in such amount as the members may decide.

When the required number of 20 signatures have been secured, notice of meeting will be sent to each one to meet and form an organization.

All present signed the document and it was agreed to leave it open until April 1, when the charter would close for the general public. No one is barred from membership. Mr. O'Reilly is treasurer of D. A. 72, Knights of Labor, and further information can be had by addressing or visiting him at his residence on Lagrange street.

BEST OF ALL

To cleanse the system in a gentle and truly beneficial manner, when the springtime comes, use the true and perfect remedy, Syrup of Figs. One bottle will answer for all the family, and costs only 50 cents; the large size $1. Try it and be pleased. Manufactured by the California Fig Syrup Co. only.

LAKE NAVIGATION.

New Boats for Service on the Inland Seas

Detroit, Mich., March 21.—Capt. John Baxter, of the lighthouse tender, has arrived here from Buffalo. Next week he will begin fitting out his steamer, which is lying at the government dock. He thinks he will be ready to commence his work of setting out stakes and burroughs, extending from here to Ogdensburg, N. Y., by the time the ice is gone.

Work on the lighthouse tender Marigold, Capt. George Scott of Eleventh district (Lakes Huron and Superior), which also lies at the foot of Leib street, will begin at the same time.

The lighthouse tender Dahlia, of the Ninth district (Lake Michigan and Green Bay), is receiving a new boiler and new upper works, at Cleveland.

Another government boat, the steamer Warrington, which belongs to the engineer's department, or rather the construction department, is fitting out at the government dock foot of Leib stree.

An iron government steamer, The Amaranth," is being built in Cleveland. It will be completed by the opening of navigation and will be at the service of Col. Ludlow, U. S. engineer.

ARGUING FOR OKLAHOMA.

Washington, March 19.—Sidney Clark, of Oklahoma City, to-day concluded his argument in support of the Oklahoma statehood bill before the house committee on territories.

Malignant Abscess.

My little girl suffered for three years from a large Abscess on her hip, the result of a fall and dislocation. The Abscess was large—

—WITH SIX OPENINGS—

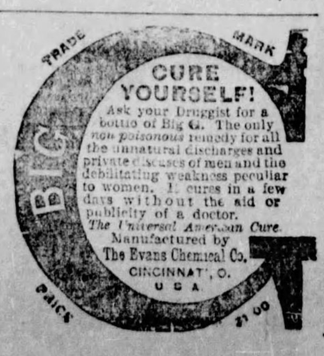
all of which discharged puss. I was induced by friends to give her

S.S.S.

and by the time the fifth bottle was finished the abscess was entirely healed, and the child was well and happy.—MRS. J. A. WEIGNER, *Slatington, Pa.*

Send for Book on the Blood and Skin.

SWIFT SPECIFIC CO., ATLANTA, GA.



THE SECRET IS OUT.

The Indianapolis Fire Was Incendiary.

One of the White Inmates Started the Conflagration Because She Had Been Separated from a Colored Girl.

Indianapolis, Ind., March 21.—The story of the origin of the fire that destroyed the female reformatory on the night of March 1, has come to light, and reveals a remarkable phase of depravity that has existed among the inmates for 20 years.

Little Anna Tapp, a child of 6 years, who had been under the care of the institution, died Sunday morning as a result of the exposure on the night of the fire.

Mrs. Elmira Johnson, the assistant superintendent, now in charge of the detach nent of prisoners housed at the workhouse, made this death the occasion of a talk to the assembled girls.

She said she had reason to know that one of the girls had set fire to the institution, and this girl had not only that crime, but also the death of little Anna Tapp upon her head. Most of the inmates burst into tears, for the child had won the hearts of even the criminal women in the prison.

A little later Minnie Johnson, one of the three girls who had been suspected of starting the fire, sent for Mrs. Johnson. The latter went to her cell and she there confessed that she had set fire to the building. Minnie Johnson is a rather pretty girl of 17, who was sent up from Richmond two years ago on conviction of theft. She had been working in the laundry on the day of the fire and had lingered behind the rest. When they were gone she ignited an ironing cloth at a gas jet and threw it upon a shelf under a stairway. From this started the fire that wrecked the building.

In her confession the Johnson girl said that she had not intended to fire the building, but simply to create a scare to get even because Patsy Williams, a colored girl, had been separated from her.

An intimacy of long standing had existed between these two girls. It had been detected through endearing notes between them that had been intercepted, and the officials of the prison made every effort to break it up without success, until they finally removed the negro girl from the prison.

Prevalence of Kidney Disease.

The large demand, in this and foreign lands, for BUCHU-PAIBA is the best evidence of its reliability as a remedy in Kidney and Genito-Urinary diseases, affections of the Bladder, &c. The increase in Kidney Complaints in this country in recent years has been arrested to a great extent through the merits of this new remedy BUCHU-PAIBA, which without doubt is the best known treatment for irritation, inflammation and catarrh of the Bladder, and the various diseased Genito-Urinary discharges. It is put up in convenient bottles that sell for $1.00 at Druggists or Chemists, or may be had of the manufacturer, express prepaid, by forwarding $1.00 to E. S. Wells, Jersey City, N. J.

Cockroaches, Ants,

Beetles, water bugs. The most effective and permanent remedy is—for two or three nights to sprinkle ROUGH ON RATS dry powder unmixed, on, in, about and down the sink and drain pipe; scatter it well but thinly all over the sink. First thing in the morning wash it all away down the drain pipe, repeat two or three nights, when all the insects from garret to cellar will disappear. The secret of this is in the fact that wherever the bugs or insects may be during the day, they must go to the sinks for water during the night. They can't stand ROUGH ON RATS in their water. This is the quickest, most effective and satisfactory remedy. ROUGH ON RATS being a poison, it should be used in this way only at night and washed away early in the morning. Another way is to mix a tablespoonful of ROUGH ON RATS with a half pound of brown sugar. Sprinkle it on rear of cupboard shelves or on plates, or on sheets of paper placed high out of reach of children.

THEIR FINDINGS.

Report of the Gas Investigating Committee

Filed With the Trustees—Recommendations and Statement of Discoveries Made.

The special investigating committee recently appointed by Mayor Emmick has filed its report with the trustees. It is submitted as presented:

To the Mayor Gas Trustees and Citizens of Toledo:

At the request of the gas trustees, the undersigned undertook the task of making a personal examination and investigation of the situation of the city's natural gas plant, and of making such recommendations as, in their judgment, would be most feasible and economical to bring the same into satisfactory condition. We now beg leave to submit the following report:

The committee first visited the gas wells located near Stuartsville and Van Buren, also in Bloom and Perry townships.

A careful test of the pressure and volume of gas produced by several wells was made, and is shown in the following exhibit:

	Line Pressure.	Minute Pressure	Volume of gas.
Well No. 1.....	88	88	1,000,000
Well No. 2.....	92	101	1,060,000
Well No. 5.....	93	98	2,566,000
Well No. 7.....	94	107	.....
Well No. 8.....	91	102	.....
Well No. 9.....	87	110	2,225,000
Well No. 10....	87	94	2,255,000
Well No. 12....	91	94	.....
Well No. 13....	87	89	.....
Well No. 14....Ex	..	..	.....
Well No. 16....	94	104	.....
Well No. 17....	92	100	.....
Well No. 19....	91	98	350,000
Well No. 20....	92	97	3,099,000
Well No. 24....	92	104	2,231,000
Well No. 28....	80	82	1,572,000
Well No. 29....	83	87	300,000
Well No. 30....	85	125	200,000
Well No. 31....	84	110	650,000
Well No. 33....	98	112	1,140,000
Well No. 34....	95	109	2,000,000
Well No. 35....	85	95	200,000
Well No. 36....	82	105	840,000
Well No. 37....	82	102	1,225,000
Well No. 38....102		120	1,000,000
Well No. 39....	95	110	.....
Well No. 40....	95	102	2,230,000
Well No. 41....	83	100	1,140,000
Well No. 42....	94	110	1,250,000
Well No. 44....	85	106	700,000
Well No. 45....	85	100	400,000
Avge. wells test'd 89		102	1,287,000

A comparison of the amount of pressure and volume of gas, as taken by your committee, with the published statement made by the gas trustees in the annual report of 1891, clearly demonstrates that the pressure and volume of a gas well is contingent upon the length of time a well has been in use and the amount of gas taken therefrom.

And it is the opinion of the committee that where many wells are drilled adjacent to each other, that the pressure and volume of all the wells will be reduced in proportion to the amount of gas taken from any or all of them, and that a high pressure cannot be maintained in any well, providing the amount of gas consumed is greater than the generating capacity of the Trenton rock into which the well is drilled. It will therefore become an absolute necessity, in order to continue and maintain the supply of natural gas, that the wells with reduced pressure shall be replaced with new wells in gas territory not adjacent to the wells or territory partially exhausted.

The fact presents itself to the minds of the committee that many people have been mistaken in their judgment as to the amount of profit accruing from the sale of natural gas, and that the necessary expenditure contingent upon maintaining and conducting a natural gas plant is much larger than anticipated by the projectors of the line.

We find, however after a careful estimate, that the income from the sale of gas will provide for the payment of interest upon the full cost of the plant, also all running expenses and provide a small fund annually as a sinking fund toward the redemption of the outstanding bonds, as per the following estimate:

Income 6 months (winter) $20,000 per mo		$120,000
Income 6 mos. (summer) $10,000 per mo		60,000
Total		$180,000
Expense.		
4 1-2 per cent. int. on $1,126,000 (cost of plant	$ 51,120	
Cost to maintain and run plant 6 months (winter) at $5,000 per month	30,000	
Cost to maintain and run plant 6 months (summer) at $3,000 per month	18,000	
Rental of wells and ground	24,000	
Net income	$128,120	$ 51,880

While the above statement exhibits a reasonable margin upon the amount invested in the plant, we believe the percentage of profit should be materially increased, in order to provide annually a sufficient sinking fund that will eventually pay the amount of bonds issued and indebtedness incurred in the construction of the gas plant.

We believe that if the gas plant is properly managed upon prudent business principles and methods, that it can be made a profitable investment for the city and her people; that the class who will derive the greatest benefit is the laboring class who pay rent or taxes upon their little homes, and to whom the matter of cheap fuel is quite an item in the total amount of annual expenses; and we believe it to be the duty of every good citizen to aid and encourage this class.

The gas plant has reached a point where it would be suicidal to the interest of the great majority, to refuse to place in the hands of the trustees sufficient means to put the city gas department in such position as will enable them to meet all obligations promptly, and thereby sustain the credit of our city.

The statement obtained from the office of the trustees may be summarized as follows:

Cost of 16-inch line from Stuartsville, 31.27 miles	$419,758.37
Cost of 12-inch line from 10-inch to Toledo, 10.17 miles	140,287.14
Cost of 2, 3, 4, 6 and 8-inch connecting lines, 8.99 miles	16,117.87
Total cost outside of city	$576,163.28
Cost of high pressure city lines 16 1-2 miles	121,693.92
Cost of low pressure city lines 74 1-2 miles	247,958.56
Total	$945,815.86
There has been purchased and leased the gas right in 3,300 acres of land, located in Hancock counties, also including several town lots, on which is now located 43 wells, at a total cost of	$151,856.28
In addition the city controls three wells for which the monthly rental is, while used	550.00
Add the cost incurred by the trustees in discharge of their duties, and for attachments, tools, fixtures, furniture, office and other labor, not included in the cost of pipe lines and wells	37,664.56
Total cost of gas plants, January 1, 1892	$1,135,336.70

Of the sum of $103,095.88, received for gas sold up to March 1, 1892, there has been refunded cash to parties having made advance payments for piping, $6,684.97, applied on gas bills in repayment for money advanced to lay pipe, $16,465.01, making a total of $23,149.98, the balance (with the exception of about $4,000 cash on deposit in the city treasury) has been expended by the trustees for current expenses, new wells and betterment of the plant.

The total liability of the trustees for the gas plant on January 1 is as follows:

Amount of city bonds issued and sold	$750,00.00	
Amount of certificates of indebtedness	220,804.50	
Amount due on advance payments	51,971.69	
Amount due on open accounts	27,340.50	
		$1,050,116.69
Difference between cost of plant and amount	$5,220.01	
		$1,135,336.70

Number of connections made for consumers	5,781
Number of mixers in use	9,584
Number of meters in use	229
Number of gass wells controlled by city	46
Number of acres of gas lands controlled by city	3,299 3-4
Monthly income from gas (winter months)	$20,000

The amount of income received for the gas sold clearly indicates that we are furnishing less than 10,000,000 cubic feet per day, to consumers, or receiving less than 8 cents per 1,000 feet by mixer rate.

The board of trustees have been and are now handicapped by being compelled to apply the income received from the sale of gas toward reducing the obligation incurred by them in the purchase of materials, fittings, pipe laying, etc., in a sum amounting to $300,000 in excess of the amount received by them as the proceeds of gas bonds sold.

The committee visited Perry township, where the trustees have secured the gas right in over eighteen hundred acres of land, and where a test well has been drilled. This territory still retains the high rock pressure formerly found in desirable gas territory, for the season that no draft has as yet been made upon it.

The test well shows a rock pressure of 350 pounds with a volume of gas ranging from 1,660,000 as the highest to 584,000 as the lowest test of its flowing capacity.

To connect wells in this territory with the main line will require about eight miles of six to eight inch main line, with several miles of three to four inch connecting lines.

Upon the assumption that the trustees were possessed of the funds necessary to perform the work, and would not be retarded by injunctions, litigations or delay, we estimate that the 20 wells could be drilled for the sum of | $20,000
Cost of eight miles main line | 40,000
Cost of connecting wells with line | 5,000
Annual rental of grounds one year | 2,000
Cost of care of wells one year | 1,000
Total cost | $68,000

Your committee visited the city of Pittsburg for the purpose of making a personal examination of the system there employed for pumping natural gas. We were treated with due courtesy by the owners and managers of the gas plant, and the committee feel themselves under obligations to Mr Pew and others for devoting their time and exhibiting the working of the system of pumps and so forth, to aid the committee in their investigation. It was found that natural gas was being successfully pumped a distance of 20 miles and from wells having a pressure of but a few pounds. The conditions are somewhat different in that field from what they are in our territory. But we were assured by parties there that our gas could be successfully pumped, with proper appliances to exclude the oil and water.

Realizing that the committee is not vested with any authority for the selection or purchase of pumping apparatus, we believe the matter can safely be left to the business discretion of the board of gas trustees, with the suggestion that they, in the event of making a contract for the erection of a pumping station, should require the manufacturer or contractor to maintain a given pressure at the city regulator for a period of one year, before any payment for said apparatus should be made. The manufacturer or patentee should be best qualified to determine the capacity and power of his invention, or apparatus, and unless the seller has sufficient confidence in his ability to furnish pumps upon a satisfactory guarantee as to the work required of them, it certainly would not be prudent for the trustees to incur the expenditure necessary upon an experiment.

During the time occupied by the committee in making its investigation, numerous propositions have been submitted covering the sale and leases of gas lands, locating of gas wells, renting of wells already drilled and furnishing mechanical apparatus for the purpose of increasing pressure in the pipe line.

The committee have assumed the position that they are not vested with an authority to do more than investigate the situation of the gas plant as it now presents itself, to report the facts as we find them, and possibly it may be considered proper for the committee to make such recommendations as in their combined judgment may be considered by them as the most advisable course to be pursued by the authorities for the future conduct of our city pipe line.

The proposition submitted by Mr. T. C. Kelley, covering five wells with a flowing pressure of over 8,000,000 feet of gas, already developed, including the gas right in 200 acres of land, upon which he will drill other wells and sell or rent the same to the city, should be carefully considered. This proposition your committee would recommend be accepted by the trustees, provided they are possessed of, or can obtain the funds necessary to construct the three wells of 6-inch line in order to connect said wells with the main pipe line. The present rock pressure of the wells offered by Mr. Kelley ranges from 220 to 325 pounds.

We would suggest that as soon as possible the gas trustees make an examination of the whole line for the purpose of ascertaining if there are any obstructions, such as oil, paraffine or otherwise, or any leakage or stoppage of the gas and if thought necessary, to apply drips to any low lying points in the line where oil or water might collect.

We would further recommend that all consumers, who use gas for illuminating purposes, be required to take gas through meter and that a thorough examination of all mixers be made, to ascertain whether or not the same are in accordance with the consumer's contract, and if any mixers be found that are not according to the contract, the same be replaced at the expense of the consumer, and that all waste of gas be immediately stopped.

We would also suggest that the matter of distribution be carefully investigated by a competent engineer and that dead ends be connected up as fast as possible, and in case consumers in any locality cannot be supplied with the present sized pipes that the same be increased in capacity and that some plan be devised to equalize the distribution throughout the city.

Your committee believe that rigid business methods should be employed in the management of the city gas department and that the operating expenses be brought down to the lowest possible point that true economy will permit.

Realizing that there is an urgent demand in Toledo for fuel gas, largely in excess of the supply, and that the city is in possession of a gas plant covering the pipe line leading to the gas fields, also having 91 miles of distributing pipe laid within the city limits, with gas territory already leased, for which the annual rental must be paid, whether the same is developed or not, and with the expense already incurred for the necessary working force to conduct the business affairs of the department, your committee is led to believe that it would be good business economy to invest an additional sum sufficient to enable the trustees to purchase pumps or to develop the territory now in possession of the city, or to purchase the Kelley gas territory and bring to our citizens gas in sufficient quantity to make the plant return an income much greater than the amount now received.

Your committee would therefore recommend that the city request the necessary legislation to put sufficient funds into the hands of the trustees to enable them to perform the work required to furnish our citizens with twenty or thirty million feet of gas daily.

Respectfully submitted,
COMMITTEE.

PERSONAL MENTION.

M. C. Moore has gone to Cincinnati.

Mrs. Lee, of Auburn avenue, is very ill.

Miss Nettie Oblinger is on the sick list.

Mr. Frank Ruffin left for Chicago last night.

Mr. Lou Fifield is visiting Toledo friends.

Mr. John Kline has been granted a pension.

Mr. R. Bell has returned from Bradford Pa.

Mr. Walter Hickernell left for Kansas City this morning.

Mr. Rob Allan, of Cleveland, spent Sunday with Toledo friends.

Mr. J. A. Walters' constitution is master of eight weeks of serious illness.

Mrs. D. Miller, of Milburn avenue, is convalescent after a serious illness.

Mrs. Gerlach, of Genoa, is visiting her mother, Mrs. Richwin, of Auburndale.

Mr. Carol Webster is in Washington, where he went to attend an important patent case.

Mrs. A. M. Johnston will go to Bradford, Pa., Wednesday, to be with her friend, Mrs. Robert Bell, who is very ill.

Mr. and Mrs. R. H. Lane and daughter Nellie have returned from Florida, and Miss Nellie is much improved in health.

Mrs. Finch and Miss Hattie, of Auburndale, will move to Elkhart the first of April, where Mr. Finch is located in business.

Mr. and Mrs. Joe Schwery of Auburndale will make their home with Mrs. Schwery's brother, of Collingwood avenue, after April 1.

Rev. S. D. Conger is ill with grippe and Mr. A. Martin conducted services at the Fifth Presbyterian church yesterday morning in his stead.

The J. S. club of the Fifth Presbyterian church will give a mite social Tuesday evening at the residence of Mr. Rakestraw, Milburn avenue.

Mr. and Mrs. B. A. Stevens left for Washington last night. They will visit Old Point Comfort and Norfolk also and will be absent about three weeks.

The last meeting of the Cherry Street Progressive Euchre club was held with Mr. and Mrs. Goulet. The first prizes were won by Mrs. Mathews and Mr. Rob Raitz. Mrs. DeForest and Mr. Folger were given the boobies, while Mrs. DeLaferty carried off the consolation. The club will meet with Mr. and Mrs. Gus Koehler, of Cherry street, this week.

Misses Edith and May Young gave a ribbon social party Friday evening at their home at 1406 Utah street in honor of Miss Anna Cook. The evening was pleasantly spent in singing and playing various games until 11:30, when a delicious supper was served, and not until 2:30 in the morning did the merry party depart for home. The ladies present were as follows: Miss Anna and Lucy Cook, Elva and Gertie Sterk, Emma and Bertha Mendelsohn, Minnie Blume, Nettie Weber, Jennie Flick, Alish Humberstone and Kitty Smith. The gentlemen present were: Messrs. Frank and Charles Reinhart, John Williams, Joe Adkins, James Monroe, Will Andres, George Smith, Will Thomas, Frank Pottany, Dennie Sullivan, Joe McKnale, Charles Nitsel, Frank Venice and Bert Brown.

Frank Cheney invited James A. Cahoon to his home Saturday evening to practice billiards, especially to get the best of an old friend (say Mr. Barnes). The game was getting exciting, when Mr. Cahoon's grandson walked in and informed him of the arrival of some dear friends. He hesitated about going home, and thinking it would not be just right to invite them there (Mrs. Cheney being absent), concluded to give up the game for the evening. Upon his return he soon understood it was his 62d birthday, for the house was swarmed with friends. Progressive euchre was indulged in until 11:30 o'clock, when an elegant lunch was served. Mr. George B. St. John and Mrs. Arthur Howell carried off the first prizes, and Mr. Harvey Scribner and Mrs. D. Y. Howell the boobies.

NOW WE HAVE IT.

A Bee correspondent has succeeded in interviewing a couple of patients now being treated at the Toledo Gold Cure institute.

Good morning, Mr. ——. I understand you are being treated for alcoholism at the Institute. Am I correct? Now, look here, I won't say a word unless you will promise to not parade my name before the public, and the physicians in charge promised this when I began treatment. The physicians in charge of the institute are blameless. We ascertained the fact of your being treated through one of your friends, and will promise to withhold your name from the public. All right, go ahead. How long have you indulged in alcoholic stimulants? More than twenty years. Did you drink every day? Some, but not excessively every day; but often I would go on a regular spree and drink a couple of quarts of whisky a day. As much as that? Yes, and two or three bottles of beer besides. Were you drinking moderately or excessively when you began treatment? Excessively. Were you able to drink while taking treatment? I drank excessively for four days, when all at once I could not retain the whisky, while milk and food was refreshing and retained. How long have you been under treatment? About ten days. Have you any desire for the stimulant? None whatever, and although a tobacco user, I am unable to use that narcotic. Are you able to attend to your business while receiving treatment? I am attending to my business as usual. Do you think you will be cured? I know I will, and virtually am now. How long do you expect to continue active treatment? About ten days more. Will you grant a further interview at that time? Yes, but will have but little to add, as I will be well, and that is the way I am now feeling.

Patient No. 2 responded to the questions propounded as follows:

I am more than 40 years old and have been a hard drinker for years, and I absolutely had no will power of my own, but would break my resolves to let whisky alone, and enter the first saloon I found and drink to excess. I was fighting with the demon, when a friend prevailed upon me to try the cure, which I but recently commenced, and I am free to say the desire for the stimulant left me as if by magic, and I am feeling first rate.

Were you requested to exercise a strong determination to let whisky alone? No; I was not even asked to drink moderately or to exercise any will power, only that I take my treatment regularly. You actually feel relieved from the craving appetite? Yes, I felt that the first day, and I have no desire for liquor at the present time. You believe, then, that you will be cured permanently? I know it, and the doctor in charge will find me on hand for treatment as regular as clockwork. May we publish your name in connection with this statement? I prefer not to have my name in the papers, but the institute is at liberty to refer parties wishing treatment to me.

NEW THROUGH PULLMAN LINE.

The Wheeling & Lake Erie railway will, with the inauguration of its new spring time schedule introduce through Pullman palace car service between Toledo and Washington, making this the most desirable route through between Toledo, Washington, Baltimore, Philadelphia and New York.

This new service will embrace three through trains. Connections in each direction.

Wabash to St. Louis.

We are carrying things with a high hand, and we don't deny it. Reason for it is very simple. Carlsbad Sprudel Salts are not a manufactured article, compounded by quacks and imitators, but are Nature's product brought over from Carlsbad. Emperors, Kings, and Statesmen have gone annually to Carlsbad seeking renewed health. It has often been said that the stomach is the seat of all disease. If that is true, Carlsbad Sprudel Salts will remove every symptom of disease, because it is the first tonic for disordered stomach. Try it to-day. Eisner & Mendelson Co., N. Y., Sole Agents.

THE REPUBLICANS

Spend the Day At Work On a City Ticket,

But Throw in a Little Taffy for Harrison

And McKinley too—Coalwell Tresc the Nomination for Police Clerk Against All Comers

The republican hosts assembled in Druid hall this morning to hold their city convention, and it was evident from the start that a big fight was on. There was plenty of keelhauling on the street before the convention assembled, and the delegates went into the convention primed for war. The host of candidates were on hand in force, and they filled the hall with as many "howlers" as there were delegates.

The whole city and county government also turned out en masse, and among the crowd were Mayor Emmick, Mayor's Clerk George Kirby, Fire Commissioner Charles Hanner, Police Clerk M. C. Fogarty, Health Officer Dr. Fisher, Sergeant Graham, Auditor's Clerk Rochford, Squire John W. Enright, Squire James Austin, jr., Infirmary Directors Baumbach, Reynolds and Coder, County Commissioner Englehardt, Work House Trustee Gus Wendt, Councilman E. H. Potter, Deputy Police Clerk S. F. Tanner, Councilman John Waring, Councilman Phil Hassenzahl, Deputy Sheriff George Horner, Sidewalk Inspector Eli Burdo, Collector of Customs Austin, Deputy Goldsmith, County Prosecutor Barber, his assistant Charles Sumner, Harbor Master Skeldon, Police Judge Sala, Deputy County Clerk Prue, Councilman J. W. Caldwell, Police Prosecutor T. W. Wheeler, Councilman L. W. Morris, Gas Trustee J. W. Greene, Deputy City Clerk James Faskins, Councilman J. W. Morganthaler, and a host of clerks and deputies from the government building and city offices along with such statesmen as Bill Boyd, Moxie, Bones and others, who seemed to have a lively interest in all that was going on.

Mr. B. O. Manchester, chairman of the city committee, called the convention to order, and after a short speech presented Mr. Phil Hassenzahl, president of the board of councilmen, as temporary chairman.

Mr. S. N. Bolles was elected temporary secretary.

Committees were appointed as follows, with one member from each ward in the order named:

Credentials—Charles Hubbard, H. C. Sprague, H. S. Bunker, Julius Strohecker, J. J. Beard, R. H. Finch, R. H. Adams, E. E. Dale, John Watson.

Rules and permanent organization—B. F. Reno, W. D. Jordan, A. W. Paine, Dr. J. W. Lilly, G. B. Orwig, W. J. Bitter, J. C. Romeis, J. W. Gould, H. Baumbach.

Resolutions—J. G. Norton, A. W. Fisher, M. C. Trout, Fred Holliger, Theo. Schunck, Stillman Brown, E. J. Tippet, Frank L. Beard, Charles Prue.

The convention then took a recess for 10 minutes to allow the committees to meet.

After this recess the committee reported the delegates with no contests.

Mr. George B. Orwig reported for the committee on rules and permanent organization. This committee recommended that the temporary organization be made permanent, and among the rules decided that candidates must have a majority of the votes cast to be nominated.

This report was adopted.

The committee on resolutions reported the following effusion, which was adopted:

"We, the republicans of the city of Toledo in convention assembled, appreciating the fact that the administration of public affairs is best in the hands of that party, wish to reiterate our fealty to these principles which have made this country so great and have kept her welfare ever in mind.

"Resolved, That we reiterate those principles enunciated in national and state platforms of the republican party which have been upheld by the people.

"Resolved, That the wise and patriotic administration of President Harrison be indorsed by the republicans of Toledo.

"Resolved, That the grand American principal of America for Americans as embodied in the protective policy of which the Hon. William McKinley, jr., is the representative, be most heartily indorsed by this convention.

"Resolved, That we hereby again proclaim our fealty to the city of Toledo in all her municipal and business departments."

Nominations were next in order, and Henry Bower was renominated for street commissioner without opposition.

Up to this time matters had gone smoothly enough, but when it was announced that next in order would be the nomination of a candidate for police clerk a perfect bedlam was let loose.

The candidates were nominated as follows:

Capt. Jacob M. Weir, by Col. H. S. Bunker.

Albert L. Johnson, by Mr. L. K. Parks.

Samuel F. Tanner, by John Kumler.

Alex. E. Forster, by W. H. Tucker.

W. H. Coalwell, by Judge Austin.

M. C. Fogarty, by I. N. Huntsberger.

Archie Gassoway, by J. B. Barrelle.

The speeches were full of the usual republican bombast, the war was fought over again, and each announcement was received with plenty of cheers from the henchmen of the candidate named. It took six ballots to decide the contest.

The balloting resulted as follows, over 100 votes being necessary for a choice:

First ballot: Weier 32 1-5, Johnson 50 1-5, Tanner 33, Forster 26 1-5, Coalwell 28 1-5, Fogarty 16, Gassaway 13 1-5, Will Harbeck 1.

Second ballot: Weier 45, Johnson 43, Tanner 28, Forster 21, Coalwell 35, Fogarty 11, Gassaway 14, Harbeck 11.

Third ballot: Weier 53, Johnson 45 1-4, Tanner 17 1-4, Forster 22, Coalwell 38 1-2, Fogarty 9, Gassaway 15.

Fourth ballot: Weier 63, Johnson 48, Fourth ballot: Weier 63, Johnson 48, garty 4, Gassaway 3, Harbeck 3.

After this ballot the names of Gassaway, Tanner and Forster were withdrawn.

Fifth ballot: Weier 78, Johnson 41, Coalwell 69, Fogarty 9.

Sixth ballot: Weier 92 1-2, Johnson 3 1-3, Coalwell 100 1-2, Fogarty 3, Gassaway 1.

This made a majority of half a vote for Mr. Coalwell, and he was declared the nominee. A motion to make it unanimous was received with a storm of noes, and the chairman said nothing. This expression of feeling showed plainly the attitude of the republicans in the convention, and did not look much like harmony.

Mr. Coalwell was introduced to the convention, and after a brief speech of thanks a recess was taken until 2 o'clock this afternoon.

At the afternoon session Capt. Ed Doville was nominated for police commissioner over Walter Brown, Arthur Lace and Joseph Hennig.

CARD OF THANKS.

I wish to return my thanks to Mr. A. Neukom's son, of 301 Broadway, for the finding and returning of my watch.

MRS. E. ARNOLD.

WALL PAPER.

As I am going to remove my store to 421 Summit street, I will close out my entire stock of Wall Paper at greatly reduced prices. All the latest designs and very handsome.

L. HOERR, 309 Summit St.

The Wolverine Hunting club will give a grand ball, Wednesday evening, March 23, at Weber's hall.

Young Mothers!

We Offer You a Remedy which Insures Safety to Life of Mother and Child.

"MOTHER'S FRIEND"

Robs Confinement of its Pain, Horror and Risk.

After using one bottle of "Mother's Friend" I suffered but little pain, and did not experience that weakness afterward usual in such cases.—Mrs. ANNIE GAGE, Lamar, Mo., Jan. 15th, 1891.

Sent by express, charges prepaid, on receipt of price, $1.50 per bottle. Book to Mothers mailed free.

BRADFIELD REGULATOR CO., ATLANTA, GA.

SOLD BY ALL DRUGGISTS.

DR. KALKHOFF

Has the largest private practice in the United States

EUROPEAN SPECIALIST.

35 years' private practice and hospital experience in Europe and America. Dr. Kalkhoff is a member of the European Association of Medical and Surgical Specialists.

Stomach and Bowel Diseases, such as Dyspepsia, Constipation, Piles, etc., cured under a guarantee by Dr. Kalkhoff's original DIET CHARTS of what to eat and drink, and SPECIFIC VEGETABLE REMEDIES, to act in harmony with the food.

Throat, Lung and Nasal Diseases, such as Catarrh, Bronchitis, Asthma, Consumption, Deafness, etc., cured by an original system of INHALATION with compressed medicated gases for home or office treatment. Worst cases of Catarrh cured by this method in two to three months.

All Chronic and Desperate Diseases such as Rheumatism, Paralysis, Neuralgia, Headache, Fits, Sleeplessness, Brain and Nervous Exhaustion, Cancers, Tumors, Skin Diseases, Freckles, Pimples, Ulcers, Salt Rheum, etc.; also Heart, Liver, Kidney, Bladder and Female Diseases.

PRIVATE AND SEXUAL DISEASES,

cured under a guarantee and forfeit of $1000 for failure. Lost Manhood, Spermatorrhoea, Seminal Weakness, Effects of Youthful Indiscretions and Sexual Excesses, Nervous Debility, Exhausted Vitality, Confusion of Ideas, Aversion to Society, Loss of Memory and energy, Impotency, etc. quickly and permanently cured by an original and never failing treatment. Gonorrhoea, Syphilis, Gleet, Stricture, Hydrocele and Varicocele cured in the shortest possible time, without the use of mercury or hindrance from business. Cures guaranteed when others have failed. Low charges, and consultation sacredly confidential. Office hours—9 to 12 a. m. 1 to 4 and 7 to 8 p. m. Sundays and holidays 9 to 12.

OUT OF TOWN PATIENTS

treated with unfailing success through correspondence. One visit desirable but not necessary. Write to **A. F. Kalkhoff, M D. Toledo, Ohio,** for free Examination Blank, or call at his Offices, Surgery and Laboratory, **No. 505 and 507 Summit St.,** where you will find the most completely equipped doctor's offices in America. **Beware of traveling doctors** who are compelled to go from home to get business.

WE ARE IN IT

For Electric Lights and Electric Stamping Machines.

This morning Col. Corlett, assistant postmaster, received a dispatch from Mr. Brown, informing him of the work of the postmasters' committee in Washington. It will be noticed the postoffice here will have some improvements and others will be secured which are not mentioned in the dispatch. The following is the telegram:

Washington, March 20, 1892.

Wm. Corlett, Assistant Postmaster:

Conference committee adjourned after presenting a number of important measures to postoffice committee of the house and senate, among which are original bills establishing postal savings depositories, postal telegraph, postal telephones, postal fractional notes, consolidation of third and fourth class matter, making $1,200 grade for carriers, classifying and fixing salaries of clerks and pay for substitutes while on vacation.

Toledo postoffice is to have electric lights and elcetrical stamping machines.

JAMES M. BROWN.

LUCAS COUNTY FUNDS.

How They Stand, as Found by the County Commissioners.

The county commissioners looked into the county treasury this morning and found the financial situation as follows:

County balance	$244,742 45
City balance	573,094 92
City pay role	777 22
City bonds and coupons	7,190 28
Dispositions.	
First National Bank	$241,133 08
Second National Bank	572,889 44
Treasury	11,782 35
Total	$825,804 87

IN TRADING CIRCLES

Both at Our Home and Abroad.

Wheat Quotations for the Day—Price Current for Produce and Other Articles.

London wheat market opens steadier; quotations unchanged. Corn quiet. Liverpool wheat steady but dull. Corn steady, better demand.

The receipts of wheat at seven principal western points to-day are 716,250 bu, compared with 411,420 bu on the same day last year.

Shipments of wheat from India last week equaled 56,000 bu. Previous week 720,000 bu. From April 1, the commencement of the crop year, to March 19, 53,738,000 bu, compared with 25,780,000 bu in the corresponding period in 1891-92.

Bradstreet's Decrease in Stocks.—The 1,063,848 bu. decrease of available wheat stocks east of the Rocky mountains last week, reported to Bradstreet's, is about 50 per cent. larger than the falling away in the official visible supply report, and is the heaviest weekly decrease (with three exceptions) since the first of January. In the week before there was a gain of 188,000 bu., and in the week before that, of 103,000 bu. In the second week of March, 1891, the decrease of available wheat stocks east of the Rocky mountains amounted to only 430,417 bu. On the Pacific coast the decrease last week was 491,774 bu., pointing to a total net decrease, both coasts, of 1,555,622 bu. One year ago the week's net falling away of total available supplies, both coasts, was only 280,417 bu., as the increase on the Pacific coast for the seven days ended March 13, 1891, amounted to 150,000 bu.

Railway earnings—Reports of January net earnings of 98 railway companies show a decrease of 7.4 per cent. contrasted with January a year ago. In December, 1891, the increase of net over the total in that month in 1890, was 15 per cent., and in November 13 per cent. The Pennsylvania and the Northern and Southern Pacific systems, New York, Lake Erie and Western, East Tennessee and Louisville & Nashville show the heaviest decline in net earnings for January.

Prime's head is level. He says: "We are to-day practically where we were one week ago with the winter wheat crop. During this whole period cold weather for the season of the year has prevailed all over the winter wheat belt. Snow has fallen to a more or less extent over a state of Missouri and Kansas, coming eastward through Southern Illinois, Indiana and Ohio. During this period the ground has kept frozen solid, and it is simply an impossibility at this stage of the crop to say whether there has been any serious damage done to the wheat or not."

The receipts of wheat to-day are very large. Minneapolis and Duluth furnish 552,693 bus and the other five points 163,557 bus. Aggregate 716,250 bus.

The export clearances Saturday at four Atlantic ports were, wheat 251,800 bus and flour to an aggregate of 425,000 bus. Export of corn 166,537 bus and of oats 43,766 bus.

English markets as reported herein open steadier and unchanged in price.

Col. Dodge, in his March report says, concerning his table of the wheat crop of the world, that "it includes countries not heretofore reported, and makes for those reported the present year about 34,000,000 bushels more than the crop of 1890, but the final estimates, which have often been made lower than the preliminary, may possibly make a reduction greater than this difference. The 2,352,537,497 bushels is at least 10 per cent. higher than current commercial estimates of recent years, simply because, like assessors' returns, they are never complete. Annual comparisons of such partial lists are very misleading."

Comment.—Very misleading! So we think, when we compare this table with those produced early in the season.

Markets To-Day.

The leading feature of the day is a loss at Chicago of what was gained in the price of wheat Saturday after New York closed at 12 o'clock. New York did not respond to the advance this morning, and Chicago very soon went back to previous parity with that market. In other respects but little can be said of the market, and that little is of no good. It seems to be a sellers market. Crop killing reports have no influence. Foreign markets opened slow if not weak, and there is no rest or peace or prosperity for the friends of wheat.

The estimated shipments of wheat to the world's markets last week are 6,030,000 bu. Estimated consumption said to be 7,000,000 bu.

Foreign markets furnish no change worth noting.

In New York.—March wheat closed 1-8c and May 1-2c lower, March corn 3-8c higher and May steady. May oats 1-8c lower.

In Chicago.—May wheat closed 1 5-8c lower, May corn 3-8c lower, May oats 1-4c lower.

In Toledo.—We have to report a dull wheat market without spirit or interest of any kind. Prices have broken off, especially for the May future. On the call July sold at 88 3-8c. After the call May sold at 91 1-8c, a loss of 3-8c, and closed at 90 3-4c, a loss of 3-4c. July sold at 88c, a loss of 1-2c. August sold at 86 3-8 @86 1-2c. Cash wheat was n very light request. No. 2 soft sold in a small way at 91 1-4@91c, a loss of 1-2c. No other sales reported.

Corn—No. 2 at 39 3-4c; May at 39c to 38 3-4c. Oats, on the call, No. 2 for May sold at 30c; No. 3 at 39 1-4c; No. 4 at 37 3-4c. Clover seed was about steady with sales of small lots only; prime at $7 35; No. 2 at $7 05 to $7 15; old No. 2 at $6 75.

The visible supply of wheat increased last week 325,000 bu. Corn decreased 32,000 bu. Oats increased 30,000 bu.

New York visible supply: Wheat, 41,143,000; corn, 12,272,000; oats, 3,972,000; rye, 1,733,000; barley, 1,171,000.

Markets by Telegraph.

London, March 21.—1:00 p. m.—Wheat cargoes off coast at opening steadier; maize very quiet. Wheat cargoes on passage and for shipments, steadier; maize quiet.

Mark Lane—Wheat and maize at opening rather easier. No. 1 California wheat just shipped or promptly to be shipped, 480 lbs California terms, 38s; No. 1 California wheat nearly due, 500 lbs California terms, 36s 3d. English and French country markets very slow and occasionally cheaper. Colder.

Liverpool, March 21.—1:00 p. m.—Wheat market steady, demand poor, holders offer moderately. American mixed corn steady, demand improving. Wheat off coast demand poor; corn demand improving.

LOCAL HAPPENINGS.

Mr. Jos. Koch returned from New York to-day.

Private sale of household goods, Tuesday, 10 a. m., 463 Hicks street.

Sergeant Irving, of the Toledo Cadets, was sworn in yesterday for his third term.

Mrs. Oliver Cromwell and son of Grand avenue left for Muncie, Ind., this afternoon.

The many friends of Miss Emma Summers will be pained to learn that she is seriously ill.

Gas Trustee Parsons is preparing to build a fine residence block on Monroe street adjoining the Baumgardner block.

Ask your grocer for Leroux' cider.

Col. Bunker receiver of the Clafin Paving company, filed a motion for permission to sell at private sale, all paving material and other chattel property in his hands. The motion was granted.

Work of construction was begun on the rebuilding of the old cot and wringer building which was recently partially destroyed by fire. When completed the structure will be 108 feet long, 55 wide and three stories high. It will be for rent.

Parley Baylus, a saloon-keeper on Nebraska avenue, was arrested yesterday for keeping a house of ill-fame. Jennie Curtis, an inmate, and eight visitors were also taken to the police station. Their cases came up in the police court this morning and were continued to March 23.

Rev. T. G. Field, district secretary of the Missionary union, will deliver an address before the meeting of the Baptist union, at Memorial church, corner Oak and Fort streets, Southeast Toledo. Rev. Dr. Field is well posted on mission work, and all who attend will be repaid for their trouble.

The same gentleman has been appointed grand chaplain of the grand chapter R. A. M., of Ohio, in both cases taking the position left vacant by the recent death of Dr. Van Cleve. Mr. Melish is the rector of St. Philip's Episcopal church, of Cincinnati, and is well known as an enthusiastic and efficient worker in the various Masonic bodies.

Pleurisy pains, and all asthmatic and bronchial affections are soon relieved by that certain remedy for coughs and colds, Dr. D. Jayne's Expectorant.

DIAMONDS FROM AFRICA.

The exhibit of diamonds from Cape Colony will be one of the most interesting features of the mines and mining exhibit at the Chicago exposition. Chief Skiff has been informed that the De Beers Diamond company will show every stage of the production of diamonds, from the pulverizing of blue earth for washing to the finished and polished stones. The exhibit will include 100 tons of pulverized blue earth for washing; 50 tons of unpulverized blue earth for a trophy to be built of the material itself; a complete washing machine, operated by natives; all the special and unusual diamondiferous products in the possession of the De Beers Diamond company; about 10,000 carats of uncut stones; a large quantity of cut and polished stones and a collection of crocidolite. The display will require a safety deposit vault and special storage for 150 tons of raw material.

There will be a musical, literary and social entertainment, given by the Railroad Ladies' Aid society, at Engineers' hall, 852 Broadway, Wednesday evening, March 23. Everybody invited.

Now is the time to select Challies. Our styles are very handsome. LAMSON BROS.

New Brussels and Egyptian Sash Nets received this morning. LAMSON BROS.

COLD PROCESS OF GALVANIZING.

A new process of galvanizing is being introduced in London, which would appear to have some advantages over the older process of steeping articles in molten zinc. The inventors claim that by the method of cold galvanizing a more uniform coating is obtained, and, in the case of wire, the tensile strength is not diminished. Comparative tests of the hardness of the coating on iron sheets show that the plate galvanized by this process has a somewhat harder surface than that obtained by present methods.

CROUP AND DIPHTHERIA.

The children's dread and the mother's terror, cured and prevented by the timely use of Dr. Hoxsie's Certain Croup Cure. No nausea. 50 cents.

Crepe Reefer Scarfs, lace trimmed, received to-day at LAMSONS'.

The freshest, most fashionable and best line of spring garments in Toledo can be found at LAMSONS'.

The Engineering and Mining Journal says that "a new material for paving is now being introduced in London. It is composed of granulated cork and bitumen pressed into blocks, which are laid like bricks or wood paving. The special advantage of the material lies in its elasticity. In roadways it furnishes a splendid foothold for horses, and at the same time almost abolishes the noise which is such an unpleasant feature of city traffic. In Australia short pieces of such roadway have given good results."

It came, it saw, it conquered. Dr. Bull's Cough Syrup, the people's remedy. 25 cts. Why spend 50 cents to relieve toothache when Salvation Oil will cure it for 25 cts.?
